

Game development programmes — international catalogue

249 programmes · 48 countries · detail complete: 249/249

A catalogue of higher-education institutions teaching game development, game design and game art. Every record was verified from the institution's **own official website**; source links appear under each entry.

Scope: Europe · United Kingdom · Türkiye · USA · Canada · Australia · New Zealand · Japan · China · South Korea · Singapore · Hong Kong · Taiwan · Israel · Gulf states (UAE, Saudi Arabia, Qatar, Bahrain, Oman) · Russia · Ukraine · Caucasus (Azerbaijan, Armenia; no dedicated game programme verified yet in Georgia). The Türkiye section covers the full national admissions guide; other countries are added institution by institution as each is verified.

How to read the fields. ECTS values marked *(from Bologna norm)* are derived from the European Higher Education Area rule of 60 ECTS per full-time year, not from the institution's page. *(no single value applies)* marks course-level, exchange or multi-track structures. ECTS is printed only for Bologna countries.

 Oman 2	 New Zealand 2	 Greece 1

- [Short-cycle / associate institutions](#)

Short-cycle / associate-level institutions

The catalogue includes **31 institutions** that teach games at **short-cycle higher education** level (EQF 5 and equivalents: associate degree, CTeSP, YH, polytechnic diploma, senmon gakkō, Turkish ön lisans, etc.). This level is often missing from international listings; it is marked separately here.

Institution	Country	Award
Anne Arundel Community College	United States	Associate of Applied Science (AAS)
Arapahoe Community College	United States	Associate of Applied Science (AAS)
Guilford Technical Community College	United States	Associate of Applied Science (AAS)
Hostos Community College (CUNY)	United States	Associate of Applied Science (AAS)
Johnson County Community College	United States	Associate of Applied Science (AAS)
Games Academy Berlin	Germany	Fachschule diploma
SAE Institute (Berlin ve diğer kampusler)	Germany	SAE Diploma (2 years) + BSc top-up
RMIT University	Australia	Advanced Diploma line
Business Academy Copenhagen (EK)	Denmark	AP (Academy Profession)
ChungKang College of Cultural Industries	South Korea	Associate Degree (3 years)
Vocational Training Council (VTC) — IVE	Hong Kong	Hong Kong Higher Diploma (2 years)
ESAT — Escuela Superior de Arte y Tecnología	Spain	Level 5 Higher Education Qualification
Futuregames	Sweden	YH (Vocational School) diploma
Reykjavik Academy of Digital Entertainment (RADE) — Taekniskolinn	Iceland	Two-year university level diploma + pathway to Bachelor's
HAL College of Technology & Design (HAL Tokyo / Osaka / Nagoya)	Japan	Diploma (2 years, junior college level)
Japan Electronics College (Nihon Denshi Senmon Gakko)	Japan	Senmon gakko diploma
Nihon Kogakuin Creators College	Japan	Senmon gakko diploma
Osaka Amusement Media College (AMG Osaka)	Japan	Senmon Gakko Diploma
Algonquin College	Canada	Ontario College Advanced Diploma
Centennial College	Canada	Ontario College Advanced Diploma
Vancouver Film School (VFS)	Canada	VFS Diploma (1 year intensive)
P.PORTO – Polytechnic of Porto (ESMAD & ISEP)	Portugal	CTeSP — EQF 5, Portuguese short cycle higher education
Nanyang Polytechnic (NYP) — School of Design & Media	Singapore	Singapore Polytechnic Diploma (3 years)
Temasek Polytechnic (TP) — School of Informatics & IT	Singapore	Singapore Polytechnic Diploma (3 years)
Afyon Kocatepe Üniversitesi — Bilisim Teknolojileri Meslek Yüksekokulu	Türkiye	Associate Degree
Anadolu Üniversitesi — Bilisim Teknolojileri Meslek Yüksekokulu	Türkiye	Associate degree, 120 ECTS (EQF 5)
Beykoz Üniversitesi — Meslek Yüksekokulu	Türkiye	Associate Degree
Eskişehir Teknik Üniversitesi — Bilisim Teknolojileri Meslek Yüksekokulu	Türkiye	Associate Degree, 120 ECTS

Institution	Country	Award
Halic Universitesi — Meslek Yuksekokulu	Türkiye	Associate Degree (Game Development Technician)
Istanbul Arel Universitesi — Meslek Yuksekokulu	Türkiye	Associate Degree
Istanbul Bilgi Universitesi — Meslek Yuksekokulu	Türkiye	Associate Degree

Tuition (country rule): Tuition is charged. In-state tuition at state universities is significantly lower than out-of-state and international tuition; private universities and art colleges charge a single fee, which is generally the highest. Community colleges are the cheapest option.

Anne Arundel Community College — Arnold, Maryland

Game Development, Visual Arts Professional (A.A.S.) · *game programme*

- **Degree:** Associate of Applied Science (A.A.S.) — TWO-YEAR PROFESSIONAL DEGREE
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** For in-district students, ALL DEGREES 10,000 USD or less
- **Sample courses / curriculum:**
 - Game design
 - 2D and 3D game art production
 - Working with game engines
 - Publishing games on various platforms

TWO-YEAR PROFESSIONAL GAME PROGRAM - short-cycle / associate level. Graduates either TRANSFER to a four-year university, produce their own games, or enter entry-level positions. Some developers in the region create TRAINING SIMULATIONS for the military and government agencies. Employment growth expected to be 5-25% by 2031.

[Programme page](#)

Arapahoe Community College — Littleton, Colorado

Game Design and Development (A.A.S.) · *game programme*

- **Degree:** Associate of Applied Science (A.A.S.) — two-year vocational degree
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** Community college — low tuition per credit for in-state students
- **Sample courses / curriculum:**
 - Preparation for careers in game development and computer programming

Two-year vocational game degree at associate / short-cycle level.

[Programme page](#)

Bradley University — Interactive Media Department — Peoria, Illinois

Game Design (BA/BS) · Game Art · Game Development (MS) · minors in Game Design and Game Project Management · *game programme*

- **Degree:** Bachelor's + Master's
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — bradley.edu
- **Sample courses / curriculum:**
 - Visualising game concepts
 - Scripting
 - Game prototyping
 - Game development process (individual and team perspectives)

- Game art

There is an option to COMPLETE IN ONE YEAR. According to Princeton Review, ranked as the number one game design program in Illinois; 23rd nationwide, 4th in the Midwest. Graduates have worked on productions such as God of War, Spider-Man 2, World of Warcraft, Saints Row, Injustice, New World. Internship partnerships with Undead Labs and PUBG Madison.

Carnegie Mellon University — Entertainment Technology Center (ETC) — Pittsburgh, Pennsylvania

Master of Entertainment Technology (MET) · *game programme*

- **Degree:** MET — terminal (highest) degree; two-year graduate program
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** Private university — CMU graduate level (annual ~55,000+ USD) [must be confirmed with ETC]
- **Sample courses / curriculum:**
 - Interactive media
 - Virtual and augmented reality
 - Computer graphics
 - Digital storytelling
 - Sound design
 - Stage technology
 - Project-based curriculum, teamwork, and research
- **Research labs:**
 - Entertainment Technology Center — Joint VENTURE of School of Computer Science + College of Fine Arts <https://etc.cmu.edu/>
- **Faculty:**
 - Derek Ham — Director of the Entertainment Technology Center — research at the intersection of technology, design, and storytelling <https://etc.cmu.edu/about>

The most well-known example of a structure co-founded by computer science and fine arts. A leading professional graduate program in interactive entertainment in the USA. NOTE: CMU Portugal has a connection with Portugal under the partnership — indirect contact point across Europe.

Champlain College — Game Studio — Burlington, Vermont

SEVEN DISTINCT GAME MAJORS: Game Art · Game Business and Publishing · Game Design · Game Production Management · Game Programming · Game Sound Design · Interactive Narrative for Game & Digital Media · *game programme*

- **Degree:** Bachelor (BS/BFA) — seven distinct majors
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private college — annual ~48,000-52,000 USD [to be confirmed by the institution]
- **Sample courses / curriculum:**
 - Seven distinct areas of specialization: art, business/publishing, production management, programming, sound design, interactive narrative, design
 - Interdisciplinary Game Studio model — students work in studio teams

- Major courses from the first semester + REAL project with other game majors
- Three consecutive years of interdisciplinary team projects
- Final year: Game Studio Senior Show — teams selected in the first semester move to FULL PRODUCTION in the second semester
- Presentation of FULLY PLAYABLE games to industry representatives at graduation
- **Research labs:**
- Champlain Game Studio — since 2004; celebrating its 20th anniversary in 2024 <https://www.champlain.edu/academics/learning-approach/experiential-learning/game-studio/>

Notable model: ALL ROLES in game production (art, design, programming, sound, narrative, production, business development) are established as DISTINCT MAJORS and students work together in teams from the FIRST SEMESTER - a real studio operation. Three consecutive years of interdisciplinary team projects; selected teams in the final year present FULLY PLAYABLE games to industry representatives at the Game Studio Senior Show. 100% of classes are taught by INDUSTRY PROFESSIONALS. Students retain the INTELLECTUAL PROPERTY of their work. Princeton Review 2026 ranks in the top 10; Game Studio will celebrate its 20th anniversary in 2024, with over 1,100 graduates (Apple, Blizzard, Bungie, EA, Insomniac, Microsoft, Nintendo, Riot, Sega, Sony, Ubisoft). There is also a Game Academy summer program for high school students.

[Programme page](#)

Clark University — Becker School of Design & Technology — Worcester, Massachusetts

BA Interactive Media (game design) + MFA · *game programme*

- **Degree:** BA + MFA
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — to be confirmed by Clark
- **Sample courses / curriculum:**
- Interactive media and game design
- Summer Game Studio program
- **Research labs:**
- Becker School of Design & Technology — established in 2021 <https://www.clarku.edu/design-technology/>
- **Faculty:**
- Alan Ritacco — Dean of Becker School of Design & Technology <https://www.clarku.edu/design-technology/about/>
- Paul Cotnoir — Associate Dean <https://www.clarku.edu/design-technology/about/>

INTERESTING STORY: Becker College CLOSED (2021) and the game design + esports programs were ACQUIRED by Clark University. Princeton Review 2026: ranked 7th in undergraduate, 8th in graduate MFA. The strength of Becker College in gaming combined with Clark's liberal arts structure. Becker College closed in 2021 and the game design and esports programs were transferred to CLARK UNIVERSITY; the management team continued their roles at the new school. Clark is again ranked among the best schools for game design in 2026 by Princeton Review. There is a Summer Game Studio program in the summer term.

[Programme page](#)

Verification sources: <https://www.clarku.edu/news/2026/03/26/the-princeton-review-names-clark-a-top-school-for-game-design-in-2026/>

DePaul University — College of Computing and Digital Media (CDM) — Chicago, Illinois

BS Game Design / BS Game Programming / BFA Animation (Game Art) / BS CS (Game Systems) + MFA Game Design / MS Game Programming / MS Software Engineering (Real Time Game Systems) · *game programme*

- **Degree:** BS / BFA / MFA / MS — nine separate game tracks
- **Duration:** 4 yr
- **Language:** English

- **Tuition:** Private university — must be confirmed with DePaul
- **Sample courses / curriculum:**
 - Separate undergraduate degrees in Game Design and Game Programming
 - Specialisation in Game Art in Animation
 - Specialisation in Game Systems in Computer Science
 - MFA Game Design: cohort-based, 2.5 years, eight 10-week quarters
- **Research labs:**
 - DePaul Originals Game Studio — a university studio publishing student games <https://ogs.cdm.depaul.edu/the-team/>
- **Faculty listing:** Faculty list for Jarvis College of Computing and Digital Media: cdm.depaul.edu/Faculty-and-Staff — no separate director has been announced specifically for game programmes.

Princeton Review rose to the top 25 in 2026. With NINE SEPARATE GAME TRACKS, it offers one of the broadest programme ranges in the USA: design, programming, art, software engineering, and technical art are separate.

[Programme page](#)

Verification sources: <https://www.depaul.edu/news/game-design26>

DigiPen Institute of Technology — Redmond, Washington (+ Bilbao and Singapore campuses)

BS Computer Science in Real-Time Interactive Simulation / BS Computer Science and Game Design / BA Game Design / BFA Digital Art and Animation · *game programme*

- **Degree:** BS / BA / BFA
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private institution — annual tuition to be confirmed from DigiPen admissions page (at US private school level)
- **Sample courses / curriculum:**
 - Real-Time Interactive Simulation: real-time simulation and game engine programming
 - Computer Science and Game Design: combination of software + design
 - Digital Art and Animation
- **Faculty listing:** The institution introduces faculty members on a collective page: patents, publications and notable names in game/animation productions. STUDENT/FACULTY RATIO 12:1 - individual mentoring is emphasized. List: digipen.edu/about/our-faculty

PRINCETON REVIEW 2026: ranked 6th in the USA for undergraduate programmes (last year 11th). UC CAMPUS: Redmond (Washington), BILBAO (Spain) and Singapore. WARNING: The Bilbao campus offers BS Computer Science in Real-Time Interactive Simulation and BFA Digital Art and Animation; this campus may be more accessible for European Union students. Strong historical ties with Nintendo and Valve.

[Programme page](#)

Verification sources: <https://www.digipen.es/about> · https://en.wikipedia.org/wiki/DigiPen_Institute_of_Technology

Drexel University — Philadelphia, Pennsylvania

Game Design & Production BS + Digital Media MS (45 credits) + BS/MS combined track · *game programme*

- **Degree:** BS + MS
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — to be confirmed by Drexel
- **Sample courses / curriculum:**
 - Digital design, animation, games, immersive media
 - Three core areas: Art and Design, Technology, Critical Thinking
- **Research labs:**

- RePlay Lab — a JOINT laboratory of the Digital Media and Computer Science departments <http://replay.drexel.edu/>

- **Faculty:**

- Rob Lloyd — Director of Game Design & Production program (since 2017) <https://drexel.edu/westphal/academics/undergraduate/GDAP/Faculty/>

- Dr. Michael Wagner — Docent; Director of Digital Media program <https://drexel.edu/westphal/about/directory/>

NOTABLE APPROACH: Drexel argues that game development does not reside in a single department, establishing the program as a partnership between Digital Media + Computer Science - reflecting the true nature of commercial game development. This is a multi-programme collaboration model (design + programming working on shared projects).

[Programme page](#)

Verification sources: <http://replay.drexel.edu/about.html>

Full Sail University — Winter Park, Florida

Game Design BS / Game Development BS / Game Art BS (on-campus and online options) · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** Total tuition for the Game Design Bachelor Completion program is 65,500 USD (ACY1 18,038 + ACY2 10,962 USD installments). WARNING: these programs are NOT ELIGIBLE for Title IV financial aid

- **Sample courses / curriculum:**

- Game design, game development, and game art separate degrees

- Accelerated calendar (continuous education throughout the year)

- **Faculty:**

- Robert L. Catto — Director of Game Design (MS) and Simulation and Visualization (BS) programs — Member of the National Center for Simulation 2021 Modeling & Simulation Hall of Fame <https://www.fullsail.edu/>

- Phoebe Elefante — Program Manager — Interactive Technology (Game Design concentration) <https://www.fullsail.edu/about/full-sail-stories/faculty-profile-phoebe-elefante-program-manager-interactive-technology-game-design>

Private, for-profit university. Accelerated program structure (Bachelor's can be completed in ~2 years). Online options are also available. FINANCIAL AID ELIGIBILITY IS LIMITED - tuition structure should be carefully evaluated.

Verification sources: <https://www.fullsail.edu/admissions/tuition>

Georgia Institute of Technology — Atlanta, Georgia

BS in Computational Media — GAMES curriculum (People-Games / Media-Games / Intelligence-Games / AI-Games combinations) · *game programme*

- **Degree:** BS
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public university: in-state ~12,000 USD, out-of-state/international ~35,000 USD/year

- **Sample courses / curriculum:**

- Combination of computing and creative expression

- One of four curricula: Film & Media Studies, GAMES, Interaction Design, Music Technology

- Can be combined with three CS Threads: People, Media, Intelligence

- **Research labs:**

- Georgia Tech Game Studio — Digital Media Program <https://dm.lmc.gatech.edu/research/labs/georgia-tech-game-studio/>

- Georgia Tech Game Studio <https://dm.lmc.gatech.edu/research/labs/georgia-tech-game-studio/>

- Emergent Game Group {egg} <https://gvu.gatech.edu/research/labs/emergent-game-group>

- ADAM Lab — Adaptive Digital Media <https://dm.lmc.gatech.edu/research/labs/>

- Experimental Television Lab <https://dm.lmc.gatech.edu/research/labs/>

- **Faculty:**

- Ian Bogost — Faculty member; Head of Georgia Tech Game Studio <https://dm.lmc.gatech.edu/research/labs/georgia-tech-game-studio/>

- Blair MacIntyre — Faculty member; Head of Game Studio <https://gvu.gatech.edu/research/labs/game-studio>

- Janet Murray — Faculty member; Director of Experimental Television Lab <https://dm.lmc.gatech.edu/research/labs/>

- Brian Magerko — Faculty member; Director of ADAM Lab (Adaptive Digital Media) <https://dm.lmc.gatech.edu/research/labs/>

- Celia Pearce — Faculty member; Founder of Emergent Game Group {egg} (2006) <https://gvu.gatech.edu/research/labs/emergent-game-group>

Joint program offered by UC SCHOOL/COLLEGE: College of Computing + School of Literature, Media and Communication (Ivan Allen College) + School of Music (College of Design). A rare structure combining computer science with humanities.

[Programme page](#)

Verification sources: <https://dm.lmc.gatech.edu/research/labs/georgia-tech-game-studio/>

Guilford Technical Community College — Jamestown, North Carolina

Simulation and Game Development (A.A.S.) · *game programme*

- **Degree:** Associate of Applied Science (A.A.S.) — two-year vocational degree
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** \$76 per credit hour for in-state students — one of the MOST AFFORDABLE game AAS programs in the USA
- **Sample courses / curriculum:**

- Simulation and game development

Combination of simulation + game; strong educational/applied game aspect. Very low cost.

[Programme page](#)

Verification sources: <https://www.bestvalueschools.org/associate-in-game-design/>

Hostos Community College (CUNY) — Bronx, New York

Game Design (A.A.S.) · *game programme*

- **Degree:** Associate of Applied Science (A.A.S.)
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** CUNY — low tuition for in-state students
- **Sample courses / curriculum:**

- Fundamentals of game design

Two-year game design degree within the CUNY system. Close to New York's game ecosystem (NYU Game Center, NYC Games Hub).

[Programme page](#)

Johnson County Community College — Overland Park, Kansas

Game Development (A.A.S.) — specializations in Game Design and Game Programming · *game programme*

- **Degree:** Associate of Applied Science (A.A.S.) — two-year professional degree
- **Duration:** 2 yr
- **Language:** English

- **Tuition:** Community college — fee per credit (very low for in-district); to be confirmed by the institution
- **Sample courses / curriculum:**
 - Two tracks: Game Design and Game Programming
 - Students in both tracks develop a game together over two years

NOTABLE MODEL: design and programming students collaborate on a shared project.

[Programme page](#)

Miami University — Oxford, Ohio

Games + Simulation (BS) — Emerging Technology in Business + Design (ETBD) department · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** State university — out-of-state/international tuition must be confirmed at miamioh.edu
- **Sample courses / curriculum:**
 - IMS 211 Introduction to Game Studies
 - IMS 212 Introduction to Game Design
 - IMS 213 Introduction to Game Development
 - IMS 259 Art and Digital Tools I
 - IMS 317 Writing for Games
 - IMS 319 Foundations in Digital 3-D Modeling and Animation
 - CSE 251 Introduction to Game Programming
 - IMS 453 Indie Game Development I
 - IMS 487 Game Prototyping, Pipeline and Production
 - IMS 488 Game Preproduction
 - IMS 489 Game Production (6 credits)
- **Research labs:**
 - John Smale Interactive Visualization Lab and Center <https://miamioh.edu/>
 - HIVE — Huge Immersive Virtual Environment <https://miamioh.edu/>
 - Esports Lounge and Arena <https://miamioh.edu/>

A total of 76 credit hours; MANDATORY INTERNSHIP. There are over 20 local game studios in the area. Curriculum combines game studies, design, and development. The final year is entirely production-focused (preproduction -> production chain).

Michigan State University — East Lansing, Michigan

Games and Interactive Media BA + Game Design and Development minor + Media and Information MA + Serious Games MA certification · *game programme*

- **Degree:** BA + MA
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public university: in-state ~15,000 USD/year, international ~40,000 USD/year
- **Sample courses / curriculum:**
 - Fundamentals of art, design, and programming in digital game development
 - History of games, their social impacts, and business models

- **Research labs:**

- Games for Entertainment and Learning (GEL) Lab / gamedev.msu.edu <https://gamedev.msu.edu/>
- College of Communication Arts and Sciences — thematic research area in game design and development
- GEL Lab — Games for Entertainment and Learning; researching the use of games for ENTERTAINMENT and LEARNING purposes together <https://gamedev.msu.edu/gel-lab>

- **Faculty:**

- Brian Winn — Professor (Department of Media and Information); founder and director of GEL Lab <https://gamedev.msu.edu/faculty/>

Princeton Review 2026: 10th in the US, number 1 in the Midwest. The program was established in 2005; it celebrated its 25th anniversary in 2025. Strong in the field of SERIOUS GAMES - the educational game aspect may overlap with applied/educational-game teaching.

[Programme page](#)

Verification sources: <https://msutoday.msu.edu/news/2025/10/msu-celebrates-25-years-of-game-development-excellence>

New York University — NYU Game Center (Tisch School of the Arts) — New York

BFA in Game Design (+ MFA in Game Design, Minor in Game Design) · *game programme*

- **Degree:** Bachelor of Fine Arts (BFA)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** NYU undergraduate tuition is high (private university); for 2025-26 approximately \$65,000/year tuition + living expenses [to be confirmed from NYU admissions page]

- **Sample courses / curriculum:**

- Game design, production and academic study of games
- Approach to games as an ART FORM like film/dance/theatre within Tisch School of the Arts
- Game Center Incubator: resources and space for selected students at graduation stage

- **Research labs:**

- NYU Game Center Incubator — a programme for developing student/alumni games <https://gamecenter.nyu.edu/>
- NYC Games Hub — New York game community centre

- **Faculty:**

- Naomi Clark — Department Chair — game designer and writer <https://gamecenter.nyu.edu/people/>
- Frank Lantz — Faculty Member; Founding Director of Game Center — award-winning designer and entrepreneur <https://gamecenter.nyu.edu/faculty/frank-lantz/>
- Eric Zimmerman — Faculty Member — award-winning game designer <https://gamecenter.nyu.edu/people/>
- Clara Fernández-Vara — Faculty Member — game studies and criticism <https://gamecenter.nyu.edu/people/>
- Charles Pratt — Faculty Member — game studies and criticism <https://gamecenter.nyu.edu/people/>

PRINCETON REVIEW 2026: #1 undergraduate and graduate game design programme in the USA. Being part of the art school (Tisch) defines the character of the programme - design/art heavy, not technical.

[Programme page](#)

Verification sources: <https://bulletins.nyu.edu/undergraduate/arts/programs/game-design-bfa/> · https://tisch.nyu.edu/game-center/news/2026_Princeton_Review_Game_Design

Northeastern University — Boston, Massachusetts (+ Oakland campus)

Game Design BFA + MS Game Science and Design · *game programme*

- **Degree:** BFA + MS
- **Duration:** 4 yr
- **Language:** English

- **Tuition:** Private university — to be confirmed with Northeastern
- **Sample courses / curriculum:**
 - Game Design (BFA, College of Arts, Media and Design)
 - MS Game Science and Design: an interdisciplinary program combining science and design
- **Research labs:**
 - Games at Northeastern — Studio <https://games.northeastern.edu/studio/>
- **Faculty:**
 - Casper Hartevelde — Professor of Game Design; Associate Dean for Graduate Programs and Strategic Initiatives, CAMD <https://games.northeastern.edu/faculty>
 - Celia Pearce — Faculty Member — game design and game studies <https://games.northeastern.edu/faculty>
 - Bob De Schutter — Faculty Member <https://camd.northeastern.edu/people/bob-de-schutter/>
 - Chris Barney — Faculty Member <https://games.northeastern.edu/chris-barney/>

The MS program is jointly offered by the College of Arts, Media and Design and Khoury College of Computer Sciences. Princeton Review: ranked 10th for undergraduate, 9th for graduate. The MS is also offered at the Oakland (California) campus. Game programs are delivered jointly by the COMPUTER SCIENCE (Khoury) and ART-MEDIA-DESIGN (CAMD) faculties.

Ohio University — J. Warren McClure School of Emerging Communication Technologies — Athens, Ohio

BS in Virtual Reality and Game Development (Scripps College of Communication) · also Media Arts and Studies — Games and Animation (B.S.C.) · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public university — ohio.edu
- **Sample courses / curriculum:**
 - Nine-course core sequence: VR technology, game design, digital tools, production, storytelling + capstone course
 - VR Production: Immersive Audio
 - VR Production: CineVR
 - Game Development II
 - 2D/3D animation, animation for games and VR/AR, hybrid animation techniques
 - Sound design for animation
- **Research labs:**
 - GRID Lab — motion capture and mixed reality equipment <https://www.ohio.edu/scripps-college/mcclure/>
 - Information Networking Labs <https://www.ohio.edu/scripps-college/mcclure/>

Ranked 21st among the top 25 public AR/VR schools in the USA according to Animation Career Review 2025. Graduates have worked at Walt Disney Imagineering, EA, Ubisoft, Unity, Bungie, Apple, Sony Santa Monica, Google, and Activision/Blizzard.

Otis College of Art and Design — Los Angeles, California

BFA in Game and Entertainment Design — Concept Art emphasis presented as a separate track · *game programme*

- **Degree:** Bachelor of Fine Arts — STEM-designated program
- **Duration:** 4 yr
- **Language:** English

- **Tuition:** Private art college — otis.edu

- **Sample courses / curriculum:**

- 3D for Games and Entertainment (Maya, Blender, Substance Painter, Photoshop)
- Technical Game Art — In Camera VFX (ICVFX), AR/VR, virtual production
- Concept Art: visual storytelling, character development, world-building, pre-production practices
- Modeling, texturing, lighting
- Game engine integration and pipeline
- Game Senior Project — real-time project and high-level portfolio for Senior Show

- **Faculty:**

- Joffery Black — Department Chair — Game Design — industry veteran and educator <https://www.otis.edu/faculty/joffery-black.html>

Notably a STEM-DESIGNATED ART DEGREE - a status that extends the post-graduation work permit (OPT) duration for international students in the USA. Industry-standard tools such as Unreal Engine, Maya, Houdini, and Substance Painter are used. Located within the entertainment sector ecosystem of Los Angeles. The faculty includes alumni (e.g., 3D animator Eli Sanchez, senior product designer at MGA Entertainment, Chu Chuntu). Full faculty: <https://www.otis.edu/programs/undergraduate/bfa-game-entertainment-design/faculty/index.html>

Purdue University — Purdue Polytechnic Institute — West Lafayette, Indiana

Game Development and Design (BS) — School of Applied and Creative Computing · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public university — out-of-state/international tuition [purdue.edu](https://www.purdue.edu)

- **Sample courses / curriculum:**

- Introduction to Games (history and principles of game design, application with game engine)
- Game Development II: Design and Psychology (design theory from aesthetic and psychological perspectives)
- Game Development Practicum (team project throughout the semester, under faculty supervision)
- 3D modelling and rendering
- Programming and rendering
- Animation and visualisation

- **Research labs:**

- Games Innovation Laboratory <https://polytechnic.purdue.edu/academics/game-development>
- Advanced Graphics Lab <https://polytechnic.purdue.edu/academics/game-development>

- **Faculty:**

- Dave Whittinghill — Docent; established the Purdue game development programme in 2014 <https://polytechnic.purdue.edu/profile/davewhit>
- Rob Howard — Professor of Practice — School of Applied and Creative Computing — game design, level design, game audio <https://polytechnic.purdue.edu/profile/rthoward>
- Jeffery Kesselman — Faculty member — 25 years of industry experience; CTO of three online ventures from tool programming <https://polytechnic.purdue.edu/profile/jpkessel>

UC YEAR TO COMPLETE option available (Degree in 3). The related Computer Graphics Technology programme is ABET accredited. Ranked 1st in Indiana in 2025 and 2nd in the Midwest in 2026 according to Princeton Review for game design schools. Graduates work at studios like EA Games and Riot Games. The programme addresses gaming not only for entertainment but also in EDUCATION, HEALTH,

RESEARCH, and EDUCATIONAL SIMULATION fields. The programme has risen to 15th place nationwide in the Princeton Review rankings.

Rochester Institute of Technology (RIT) — Rochester, New York

Game Design and Development BS + MS (accelerated BS/MS track available) · *game programme*

- **Degree:** BS + MS
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — annual ~60,000 USD [must be confirmed with RIT]
- **Sample courses / curriculum:**
 - Practical experience in game development and publishing
 - Accelerated BS/MS track: combined undergraduate and graduate
- **Research labs:**
 - Golisano College of Computing and Information Sciences — School of Interactive Games and Media <https://www.rit.edu/computing/study/game-design-and-development-bs>
 - School of Interactive Games and Media — Golisano College of Computing and Information Sciences <https://www.rit.edu/computing/school-interactive-games-and-media>
 - MAGIC Center — Media, Arts, Games, Interaction and Creativity <https://www.rit.edu/magic/directory>
- **Faculty listing:** Resources for school management are conflicting (Tona Henderson is mentioned as department chair, Dr. Jose P. Zagal as school director); current status must be confirmed with RIT. Faculty list: rit.edu/computing/school-interactive-games-and-media

PRINCETON REVIEW 2026: Ranks 4th in the USA; graduate program ranks 4th WORLDWIDE. Both BS and MS in the national top 10.
Being a technology institute defines the program's technical emphasis.

SCAD — Savannah College of Art and Design — Savannah and Atlanta, Georgia (also Lacoste/France and online)

School of Creative Technology — Interactive Design and Game Development: Game Development BA · Game Development BFA · Game Development MA · Game Development MFA · Interactive Design MA · Interactive Design MFA · *game programme*

- **Degree:** SIX DISTINCT DEGREES (BA, BFA, two MAs, two MFAs)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private art university — scad.edu
- **Sample courses / curriculum:**
 - Interactive Design
 - Game Development
 - AR/VR Applications
- **Research labs:**
 - AR/VR laboratories <https://www.scad.edu/academics/programs/interactive-design-and-game-development/degrees>

Founded in 1978. One of the broadest ranges of game/interactive design degrees in the USA, with SIX DISTINCT DEGREES from undergraduate to postgraduate. Students have won awards in competitions such as the E3 College Game Competition and Intel University Games Showcase. EVERY QUARTER, industry professionals come to campus for interviews and portfolio reviews (Blizzard, Google, IBM, Microsoft, Riot Games). Graduates work at Apple, Adobe, EA, Microsoft. NOTE: Some third-party sites still list the Hong Kong campus; SCAD's OWN academic catalogue shows the current campuses as Savannah, Atlanta, and Lacoste (France) along with the SCADnow online option.

SMU Guildhall (Southern Methodist University) — Dallas, Texas

Master of Interactive Technology (M.I.T.) in Digital Game Development + BA in Game Development · *game programme*

- **Degree:** M.I.T. (graduate) + BA
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** Private university — must be confirmed with SMU
- **Sample courses / curriculum:**
 - FOUR core areas of game development: Art, Level Design, Production, Programming
 - Over 100 graduate courses
 - Each student graduates with at least ONE COMMERCIAL QUALITY game
 - Independent research on current topics
- **Research labs:**
 - SMU Guildhall — curriculum developed since 2003, modeling a real studio environment <https://www.smu.edu/guildhall>
- **Faculty:**
 - Gary Brubaker — Director <https://www.smu.edu/guildhall/about/faculty>

One of the rare programs offering specializations in FOUR AREAS of game development. Portfolio-focused: graduation requirement is three commercially quality games.

Shawnee State University — Portsmouth, Ohio

BFA in Game & Simulation Arts (College of Arts and Sciences) · BS in Gaming Engineering Technology / game programming (College of Business, Engineering and Technology) · Gaming Art minor · *game programme*

- **Degree:** BFA + BS (two separate undergraduate programmes)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public university — shawnee.edu; there are special scholarships for game programmes (game scholarship)
- **Sample courses / curriculum:**
 - Traditional and digital art
 - 3D modelling and animation
 - Character design
 - Interface design
 - Game design
 - Motion capture
 - Software development and fundamentals of computer science (BS track)
 - Senior Studio — capstone project

- **Research labs:**

- Motion Capture Studio lab <https://www.shawnee.edu/game-design-programs>
- Virtual Reality and Augmented Reality (VR/AR) laboratory <https://www.shawnee.edu/game-design-programs>
- Varsity Esports teams and annual Art & Technology Game Conference <https://www.shawnee.edu/game-design-programs>

EXCELLENT MODEL: ART (BFA) and ENGINEERING (BS) programmes are in SEPARATE colleges but collaborate on a CAPSTONE PROJECT in the final year - artist and programmer students create games together. According to Princeton Review, it has been Ohio's number one for 16 consecutive years, ranked in the top 20 worldwide, and 3rd in the Midwest for game design schools. Despite being a small public university, it ranks globally in the field.

[Programme page](#)

Verification sources: <https://www.shawnee.edu/areas-study/college-arts-sciences/fine-digital-performing-arts/bachelor-degrees/game-arts> · <https://www.shawnee.edu/areas-study/college-business-engineering-technology/engineering-technologies/bachelor-degrees/game-programming>

The University of Texas at Austin — Austin, Texas

Game Development and Design Program (GDAD) — jointly administered by: Arts and Entertainment Technologies (AET), Computer Science (CS), Radio-Television-Film (RTF), Texas Immersive Institute (TXI) · *game programme*

- **Degree:** Interdisciplinary program — with minors and specialisation options across four departments
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public university — utexas.edu
- **Sample courses / curriculum:**
 - AET 353 2D Animation for Games
 - CS 329E Elements of Game Development
 - RTF 331P Video Game Culture and Criticism
 - Game Development Capstone — jointly administered in the SAME CLASS (AET 376/377, CS 354S/354T, RTF 344T); 2D fall, 3D spring semester
 - Animation, art, coding, production, narrative/design, game studies, and sound design

93% EMPLOYMENT SIX MONTHS AFTER GRADUATION. Ranked 1st in Texas and 2nd in the Southwest for undergraduate game programs in the 2024 Animation Career Review analysis. The program explicitly targets not only entertainment but also the non-entertainment applications of GAME TECHNOLOGY. The structure of the Capstone course, which brings students from three different sections together in the SAME CLASS, is noteworthy.

University of California, Irvine (UCI) — Donald Bren School of Information and Computer Sciences — Irvine, California

B.S. Computer Game Science (Department of Informatics) — also known as the Game Design and Interactive Media (GDIM) program · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** State university — uci.edu
- **Sample courses / curriculum:**
 - Computer Science Core: programming, data structures, graphics, artificial intelligence
 - Mathematics: statistics, linear algebra, logic
 - Games and Society

- Game Design
- Game Engines
- Multiplayer Games
- TWO QUARTER CAPSTONE PROJECT: creating a game from scratch under the guidance of local industry game designers.

A game degree established within a RESEARCH UNIVERSITY, in the SCHOOL OF COMPUTER SCIENCE - a different model from art schools. Launched in 2011. The capstone project lasts two quarters under industry mentorship, forming the backbone of the curriculum. The Orange County technology ecosystem (with studios like Blizzard and Obsidian in the area) provides internship opportunities.

University of California, Santa Cruz (UCSC) — Santa Cruz, California

BS in Computer Game Design + MS/PhD Computational Media + MS Games and Playable Media + MS Serious Games

· *game programme*

- **Degree:** BS / MS / PhD
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Public (California) university: in-state ~15,000 USD, out-of-state/international ~50,000 USD/year
- **Sample courses / curriculum:**
 - Computer game design (engineering-based undergraduate)
 - Computational Media (research master's and PhD)
 - Games and Playable Media: professional master's, lasts 1.25 years
 - Serious Games: the FIRST serious games master's programme in the USA
- **Research labs:**
 - Games @ UC Santa Cruz — Baskin Engineering, Computational Media department <https://games.ucsc.edu/>
 - Center for Games and Playable Media (2010) — houses the school's BES game research laboratory <https://games.soe.ucsc.edu/games-and-playable-media>
 - Expressive Intelligence Studio — one of the largest technical game research groups in the world <https://games.soe.ucsc.edu/games-and-playable-media>
- **Faculty:**
 - Michael Mateas — Professor — Expressive Intelligence Studio <https://games.soe.ucsc.edu/games-and-playable-media>
 - Noah Wardrip-Fruin — Professor — game and narrative research <https://games.soe.ucsc.edu/games-and-playable-media>
 - Jim Whitehead — Professor <https://games.soe.ucsc.edu/games-and-playable-media>
 - Arnav Jhala — Lecturer <https://games.soe.ucsc.edu/games-and-playable-media>
 - Marilyn Walker — Professor <https://games.soe.ucsc.edu/games-and-playable-media>
 - Soraya Murray — Lecturer — game studies <https://games.soe.ucsc.edu/games-and-playable-media>
 - Warren Sack — Lecturer <https://games.soe.ucsc.edu/games-and-playable-media>
 - Sri Kurniawan — Lecturer <https://games.soe.ucsc.edu/games-and-playable-media>

The institution that launched the FIRST SERIOUS GAMES master's programme in the USA - with a strong focus on educational/applied games. Consistently ranked among the best game design programmes in the world; 2nd among public universities in the USA. NOTE: The Games and Playable Media MS programme has suspended admissions for 2025-26.

University of Central Florida — FIEA (Florida Interactive Entertainment Academy) — Orlando, Florida

MS in Interactive Entertainment (Art / Programming / Production Tracks) · *game programme*

- **Degree:** Master of Science
- **Duration:** 1.3 yr
- **Language:** English
- **Tuition:** Public university graduate program — different for in-state/out-of-state; must be confirmed with FIEA
- **Sample courses / curriculum:**
 - 16 MONTH intensive program, four semesters full-time
 - Art, programming, and production tracks collaboratively create games
 - Industry-based, studio model education
- **Research labs:**
 - FIEA — facility established in partnership with ELECTRONIC ARTS (EA) in downtown Orlando <https://fiea.ucf.edu/>
- **Faculty:**
 - Ben Noel — Executive Director (since 2005) <https://fiea.ucf.edu/faculty/ben-noel/>
 - Erik Sand — Faculty Member <https://fiea.ucf.edu/faculty/erik-sand/>

PRINCETON REVIEW 2026: UCF ranks 3rd in the USA. FIEA is the ONLY graduate school (no undergraduate) - 16 months, industry-focused. Established in partnership with EA; member of the National Center for Simulation. The Orlando area is the hub of the simulation industry.

Almanya

Tuition (country rule): There are no tuition fees at public higher education institutions; only a semester administrative fee (Semesterbeitrag) is paid. Private colleges charge fees.

Games Academy Berlin — Berlin (Berlin-Mitte)

Game Design / Game Programming / Game Production programmes · *game programme*

- **Degree:** Private vocational school diploma (Fachschule) — recognized by the STATE OF BERLIN
- **Duration:** 1 yr · **ECTS:** — *(ECTS not used for this national qualification)*
- **Language:** German (some programmes in English)
- **Tuition:** Private school — to be confirmed by Games Academy

- **Sample courses / curriculum:**

- Game design
- Game programming
- Game production

- **Faculty listing:** The institution does not publish the names of its faculty members.

EUROPE'S FIRST and most recognized computer/video game development specialist school. Not a university, but a private specialist college located in the heart of the Berlin game ecosystem. The Game Design track is the school's SHORTEST programme: completed in two semesters (one year) covering game theory, game economics, law, marketing, project planning, and the fundamentals of game design. Other tracks (programming, art) are longer.

Game Design (B.A.) · *game programme*

- **Degree:** Bachelor of Arts
- **Duration:** 3.5 yr · **ECTS:** 210 ECTS
- **Language:** English
- **Tuition:** Tuition fee is NONE (state university); semester contribution fee + public transport card

- **Sample courses / curriculum:**

- Environment Design
- Character Design
- Production Design
- Analogue and Tech Prototyping
- 3 Week Game Jam
- 30+ student game projects per year

- **Faculty:**

- Prof. Susanne Brandhorst — Game Design

Additionally, there is an M.A. in Game System Design. Contact: game@htw-berlin.de

[Programme page](#)

HTW Dresden — Dresden

Medieninformatik (B.Sc. / Diplom) · *game courses*

- **Degree:** Bachelor of Science (also Diplom option)

- **Duration:** 3.5 yr · **ECTS:** 210 ECTS
- **Language:** German
- **Tuition:** No tuition fees at public universities; semester contribution ~250-350 EUR (usually includes public transport card). Annual fees are charged at private universities. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Programming and design of computer games
 - Programming, databases, algorithms
 - Graphic design, animation, interaction design

Listed among institutions providing game education in Gamecampus. HTW Dresden also offers a Bachelor's in Computer Science, a Master's in Applied Computer Science, and a Bachelor's in Business Informatics (total of 38 programs).

Hochschule Darmstadt (h_da) — Darmstadt

BA Animation & Game + MA Animation and Game Direction · *game programme*

- **Degree:** BA + MA
- **Duration:** 3.5 yr · **ECTS:** 210 ECTS
- **Language:** German
- **Tuition:** Public university — no tuition fees; semester contribution required
- **Sample courses / curriculum:**
 - Character design
 - Storytelling
 - 2D and 3D animation
 - Game development and programming

One of Germany's established public UAS in the field of animation and games. Its distinctive feature is the combination of animation and games in a single program; the master's focuses on Animation and Game DIRECTION (directing).

[Programme page](#)

Verification sources: <https://www.animationcareerreview.com/articles/germany-animation-school-options>

Hochschule Mittweida — Mittweida

Media Informatics and Interactive Entertainment (B.Sc. + M.Sc.) · *game programme*

- **Degree:** Bachelor of Science + Master of Science
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** German
- **Tuition:** No tuition fees at state universities; semester contribution ~250-350 EUR (usually includes public transport card). Annual fees apply at private universities. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Media Informatics and Interactive Entertainment
 - Motion Simulation and Software Development
 - Blockchain Technologies in the Context of eSports
- **Research labs:**
 - Living Lab: Motion Simulation & Software Development — numerous driving simulators: Formula Student race car-based Black Mamba, KTM X-Bow Large-Scale Simulator, Porsche driving simulations <https://medieninformatik.hs-mittweida.de/>
- **Faculty:**
 - Prof. Dr. Matthias Vodel — Living Lab Manager (Motion Simulation)

- Prof. Dr. Marc Ritter — Media Informatics
- Prof. Christian Roschke — Interactive Entertainment
- Prof. Alexander Marbach — Media

The simulation laboratory directly overlaps with game technology - high potential for joint projects. Additionally, there is a Bachelor's degree in Applied Computer Science in Mittweida (specialising in software development or IT security).

TH Köln – Cologne Game Lab – Cologne

M.A. Digital Games / M.A. Game Development & Research / M.A. 3D Animation for Film & Games · *game programme*

- **Degree:** Master of Arts (M.A.) - three separate programmes
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** English

- **Tuition:** No tuition fees; semester contribution required
- **Sample courses / curriculum:**
 - Game Development & Research: research-focused game development
 - 3D Animation for Film & Games
 - Collaborative PhD Projects (doctoral collaboration)
- **Research labs:**
 - Cologne Game Lab research areas: Game Design, Game Art, Sound Design, Game Informatics, Game Economics, Game Studies <https://colognegamelab.de/research/>
- **Faculty:**
 - Prof. Björn Bartholdy — Media Design <https://colognegamelab.de/about/faculty-staff/professors/>

Technische Hochschule Brandenburg — Brandenburg/Havel

Interactive Media (M.Sc.) + Medieninformatik (B.Sc., Specialization in Interactive Media) · *game programme*

- **Degree:** Master of Science (+ Bachelor)
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** ENGLISH (M.Sc.)
- **Tuition:** No tuition fees at public universities; semester contribution ~250-350 EUR (usually includes public transport card). Annual fees are charged at private universities. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Media theories, Creative technologies, Media research
 - Immersive media, Mobile user experience
 - Media communication, Interface design
 - GameLab (elective module)
 - Game Design and Game Development curriculum area
 - Project work and research-focused courses each semester
- **Research labs:**
 - 19 laboratories: A/V studio, media production lab, video production environment capturing studio, MOTION CAPTURE system, VR/MR glasses, physical computing lab
 - Software: Unity, Unreal, Cinema 4D, Blender, Maya
- **Faculty:**

IMPORTANT: The master is fully English-taught and includes a GameLab module. Part-time option is also available (6 semesters). THB also offers Bachelor's in Computer Science and Business Informatics.

Technische Universität München (TUM) — Munich/Garching

Informatics: Games Engineering — B.Sc. (6 semesters, GERMAN) and M.Sc. (4 semesters, predominantly ENGLISH) · *game programme*

- **Degree:** B.Sc. + M.Sc.
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** Undergraduate GERMAN · postgraduate predominantly ENGLISH (some electives can be replaced with German)
- **Tuition:** EU students: state university, no/low tuition fees. Non-EU: 6,000 EUR/semester
- **Sample courses / curriculum:**
 - Choose two from nine specialisation tracks: Computer Graphics, Interaction and Communication, Hardware-aware Programming, Numerics and Simulation, Autonomous Systems, Game Theory and others
 - Master's thesis in the 4th semester
 - Theoretical foundations of interactive computer game technologies
 - Technical implementation with software and heterogeneous computing devices
 - Multisensory interfaces and visualisation systems
 - Hardware-specific aspects + human aspects such as usability and motivation
 - Elective modules in Games Design
- **Faculty:**
 - Gudrun Klinker, Ph.D. — Professor — related course in Games Engineering programme <https://www.cit.tum.de/en/cit/studien/s/degree-programs/master-informatics-games-engineering/>

One of the strongest technical game engineering programmes in Europe. Application: 30 November (summer) / 31 May (winter), C1 English. POSTGRADUATE PREDOMINANTLY IN ENGLISH - Postgraduate can start in both summer and winter semesters. The programme is part of the TUM School of Computation, Information and Technology.

Universität Hamburg — Hamburg

Department of Informatics — InfM-IGD Interactive Game Development module (HCI group) · *game courses*

- **Degree:** Module level (no separate game programme)
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** German (Bachelor); two English research Master's degrees available
- **Tuition:** No tuition fees at state universities; semester contribution ~250-350 EUR (usually includes public transport card). Annual fees apply at private universities. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - InfM-IGD: Interactive Game Development (elective module)
 - Game Development courses of the HCI group; game prototypes are developed
- **Research labs:**
 - Human-Computer Interaction (HCI) research group, Department of Computer Science <https://www.inf.uni-hamburg.de/en/institut/ab/hci/>

At Hamburg University, game courses/module level. In contrast, there are TWO ENGLISH research Master's degrees: Data Science and Artificial Intelligence and Intelligent Adaptive Systems. There is also a separate Games-Master consortium in Hamburg (gamesmaster-

Universität Ulm — Ulm

Media Informatics (B.Sc./M.Sc.) — includes game development projects · *game courses*

- **Degree:** Bachelor/Master of Science
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** German (Mathematical Data Science Master's in ENGLISH)
- **Tuition:** No tuition fees in public universities; semester contribution ~250-350 EUR (usually includes public transport card). Annual fees apply in private universities. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Media Informatics: app design, GAME DEVELOPMENT, front-end/back-end, artificial intelligence, software development, UX and web design
 - 3D printing, drones, virtual reality and applied projects in game development

Ulm Media Informatics students were nominated for the 2021 GERMAN COMPUTER GAME AWARD (Deutscher Computerspielpreis) with the VR game The Social Engineer. There is no separate game programme, but game development is strong within Media Informatics. Additionally, there is an ENGLISH Master's in Mathematical Data Science in Ulm (Informatics and AI in German).

Australia

Tuition (country rule): Tuition is charged. Domestic students benefit from government-supported quotas (CSP) and HECS-HELP loans; international students pay full fees.

Academy of Interactive Entertainment (AIE Institute) — Sydney and Canberra (also Melbourne, Adelaide, Seattle, Lafayette)

Bachelor of Game Development — Game Art / Game Design / Game Programming major · *game programme*

- **Degree:** Bachelor
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** To be confirmed with AIE (private institution)
- **Sample courses / curriculum:**
 - Three game development sub-disciplines IN ONE program: art, design, programming
 - The program includes team-based project and practical assessment
 - Experienced academic staff, studio environment
- **Faculty listing:** The institution does not publish faculty names; the staff consists of instructors with industry experience.

THE FIRST undergraduate program in AUSTRALIA that COMBINES three core game development sub-disciplines in a multidisciplinary environment. First intake February 2023. AIE Advanced Diploma graduates can add 3 semesters (18 months) to reach the bachelor — a bridge from short-cycle to bachelor level. AIE also has campuses in the USA (Seattle, Lafayette). AIE is a non-profit educational institution established in 1996 to grow and support the game industry; teaching is conducted in a studio environment by instructors with industry experience. SEVEN CAMPUSES: four in Australia (Canberra, Sydney, Melbourne, Adelaide), two in the USA (Seattle and Lafayette), and a separate online campus.

Griffith University — Gold Coast / Brisbane, Queensland

Bachelor of Games Design · Bachelor of Game Design and Production (including Character Animation) · Honours (+1 year) pathway for both · *game programme*

- **Degree:** Bachelor
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** Public university; international fees to be confirmed with Griffith
- **Sample courses / curriculum:**
 - Fundamental Art Skills
 - Storytelling and Storyboarding
 - Cinematography
 - 3D Modelling
 - Human Movement
 - Game Level Design
 - Sound Design
 - The Impact of Games on Society

Comprehensive curriculum in creative game art and design; includes theoretical courses such as the social impact of games. Bachelor's degree is 3 years full-time (6 years part-time); there is a 1-year HONOURS pathway for research or transition to postgraduate study.

Queensland University of Technology (QUT) — Brisbane, Queensland

Bachelor of Games and Interactive Environments — Game Design / Animation / Software Technologies major options

· *game programme*

- **Degree:** Bachelor
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** Public university; annual fee for international students to be confirmed with QUT. A new scholarship program has been launched to cover tuition fees for 2026.
- **Sample courses / curriculum:**
 - Game Design
 - Interactive Environments
 - Game-Based Technology
 - Game Conceptualization
 - Character Development
 - 3D Modeling
 - Coding and Programming
 - Complete Game Design Process (from concept to production)
- **Faculty:**
 - Dr Cody Phillips — Senior Lecturer — Computer Science — digital games, virtual reality, augmented reality <https://www.qut.edu.au/about/faculty-of-science/school-of-computer-science>

Promoted as Queensland's MOST SUCCESSFUL degree of this type; it has strong ties with the local game industry and game-based technology partners. The program delivers both technical and creative aspects: the entire game design process from concept to character development, 3D modeling to coding is included in the curriculum. The program is part of QUT School of Computer Science; the same school also offers undergraduate degrees in data science and information technology, as well as master's and doctoral pathways.

[Programme page](#)

RMIT University — Melbourne, Victoria

Game and Interactive Media Programs: Advanced Diploma, Bachelor and Master levels · *game programme*

- **Degree:** Advanced Diploma / Bachelor / Master
- **Duration:** — *(no single value applies)*
- **Language:** English
- **Tuition:** Public university; international fee to be confirmed with RMIT
- **Sample courses / curriculum:**
 - Game Design and Interactive Media
- **Faculty:**
 - Dr Jennifer Lade — Senior Lecturer — School of Design and Social Context — conducting game design programs <https://www.rmit.edu.au/about/schools-colleges/design/people>
 - Tom Penney — Senior Lecturer — Digital Design / Games <https://www.rmit.edu.au/about/schools-colleges/design/people>

NOTE: RMIT also offers an ADVANCED DIPLOMA (vocational, short cycle) level program in the game field - close to a short-cycle / associate level (EQF 5). There is a pathway for transition to bachelor's and master's degrees.

[Programme page](#)

Swinburne University of Technology — Melbourne, Victoria

Bachelor of Games and Interactivity (including options for Double Degrees with Animation, Computer Science, and Applied Innovation) · *game programme*

- **Degree:** Bachelor
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** Public university; international fees to be confirmed with Swinburne
- **Sample courses / curriculum:**
 - Projects on analog AND digital games
 - Applied and creative research in a games lab environment
 - Communication skills

Incorporating analog (tabletop) games into the curriculum is distinctive - an approach to teaching the fundamentals of game design independent of digital formats. The program's distinguishing feature is the Double Degree options: it can be combined with degrees in Games and Interactivity, Animation / Computer Science / Applied Innovation.

[Programme page](#)

Verification sources: <https://e2studysolution.com/news/top-universities-to-study-game-design-in-australia/>

Tuition (country rule): Public universities charge a low semester fee for EU/EEA citizens; fees are doubled for students from outside the EU. Fachhochschule institutions set their own fees.

FH Oberösterreich — Hagenberg Campus (University of Applied Sciences Upper Austria) — Hagenberg

Media Technology and Design (MTD, BA) · Digital Arts (DA, BA + MA) — game development is offered in both undergraduate programmes; there is a common GAME DEVELOPMENT umbrella under the Department of Digital Media (hagenberg.games) · *game programme*

- **Degree:** Bachelor + Master
- **Duration:** 3 yr · **ECTS:** 180 ECTS *(from Bologna norm)*
- **Language:** Media Technology and Design: English from the 2026 spring semester. Digital Arts: good level of German required
- **Tuition:** Austria FH — confirmation should be obtained from fh-ooe.at
- **Sample courses / curriculum:**
 - Fundamentals of game development
 - Game production
 - Game design
 - Game art
 - Game interfaces
 - Embodied Play (elective)
 - Games with a Purpose — purpose-driven games (elective)
 - Programming + design together (MTD)
 - Game studies theory (Digital Arts)
- **Research labs:**
 - hagenberg.games — The game development umbrella of the Digital Media Department <https://hagenberg.games/en>
- **Faculty:**
 - Jeremiah Diephuis
 - Michael Lankes
 - Wolfgang Hochleitner
 - Martin Kocur
 - Georgi Kostov
 - Alexander Eibler
 - John Kulha
 - Nora Loimayr
 - Philipp Wintersberger

The Media Technology and Design programme will transition to COMPLETELY ENGLISH from the 2026 spring semester - The two undergraduate programmes (technical-heavy MTD and design-heavy Digital Arts) complement each other in game development; career outputs include game developer, game designer, art director, character artist. Nine faculty members teaching game courses have been named.

FH Salzburg (Salzburg University of Applied Sciences) — Salzburg (Puch/Urstein)

MultiMediaTechnology (Bachelor + Master) — Specialisation in GAME & SIMULATION ENGINEERING at Master's level

· *game programme*

- **Degree:** BSc + MSc
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** German and English (Master primarily in English)
- **Tuition:** Austria FH: ~363 EUR per semester for EU students + student union fee; higher for non-EU
- **Sample courses / curriculum:**
 - Bachelor: multimedia technology, programming, graphics
 - Master: Game & Simulation Engineering OR Web Engineering specialisation
 - Game engine development and simulation
- **Faculty:**
 - FH-Prof. DI Dr. Markus Tatzgern — Research Chair; Head of the Game & Mixed Reality academic field <https://www.fh-salzburg.ac.at/en/study/ct/specialisations/game-mixed-reality>

ONE OF THE MOST TECHNICAL GAME PROGRAMS IN AUSTRIA. Direct specialisation in Game & Simulation Engineering at Master's level. Additionally, FH St. Polten offers Digital Design / game development and theory courses. The MultiMediaTechnology Master's has a specialisation line in Game & Simulation Engineering; gaming and AUGMENTED REALITY are combined in the same academic field.

American University in Dubai (AUD) — Dubai

Bachelor of Science in Game Design and Development · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — aud.edu must be verified
- **Sample courses / curriculum:**
 - Game Design
 - Game Development
 - Design and Development concentrations

Dedicated BS; curriculum established with USC School of Cinematic Arts. Part of Mohammed Bin Rashid School for Communication.

[Programme page](#)

Heriot-Watt University Dubai — Dubai

BSc (Hons) Computer Systems (Computer Games Programming) · *game programme*

- **Degree:** Bachelor (Hons)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** UK campus fee — to be confirmed from hw.ac.uk/dubai
- **Sample courses / curriculum:**
 - Computer Systems
 - Game Programming
 - Year 4 Game Specialism

UK degree awarded in Dubai; years 1-3 are common Computer Systems, year 4 is games programming specialism.

[Programme page](#)

SAE University College Dubai — Dubai

Bachelor of Games Development (Games Design / Games Programming) · *game programme*

- **Degree:** Bachelor
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** Private — dubai.sae.edu must be verified

- **Sample courses / curriculum:**

- Game Design
- Game Programming
- Game Production

Australian degree pathway; design and programming specialisations; KHDA/MOHESR licensed campus.

[Programme page](#)

Euro University of Bahrain — Manama

BSc in Computer Science (Games Development) · *game programme*

- **Degree:** Bachelor of Science
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** Private — must be verified from eub.edu.bh
- **Sample courses / curriculum:**

- Unity
- Unreal
- C#
- Final Year Games Development Module

Academic guidance from University of London / Goldsmiths; a pathway in games development within CS.

[Programme page](#)

Tuition (country rule): At state-supported institutions, the annual fee for EU/EEA citizens is low by European standards; non-EU students pay higher fees. Exchange students do not pay fees.

Erasmushogeschool Brussel — Brussels

Multimedia and Creative Technology (professional bachelor) — Including Experience Design branch · *game courses*

- **Degree:** Professional Bachelor
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** Dutch (English programme page available; confirm with the institution for changes)
- **Tuition:** Belgium higher education tuition — [erasmushogeschool.be](https://www.erasmushogeschool.be)
- **Sample courses / curriculum:**
 - Application and web development
 - VIRTUAL REALITY GAMES
 - Motion graphics
 - Interactive installations
 - Experience Design branch: conceptualisation, 2D/3D visualisation, prototyping
 - AV technology, sensors, and creative coding (hardware + software)

The curriculum explicitly includes virtual reality GAMES, but there is no separate game programme - hence the game focus is marked as Medium. The Experience Design branch produces immersive experiences aimed at the events, culture, and marketing sectors. The distinctive feature is teaching both SOFTWARE and HARDWARE (sensors, AV technology) together.

[Programme page](#)

Verification sources: <https://www.erasmushogeschool.be/en/programmes/multimedia-and-communication-technology-multimedia>

Howest University of Applied Sciences — Digital Arts and Entertainment (DAE) — Kortrijk

Bachelor of Digital Arts and Entertainment — Game Development major (+ Game Graphics Production, Independent Game Production, Interactive Sound Production, 3D Animation, VFX) · *game programme*

- **Degree:** Bachelor (Professional)
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** DUTCH AND ENGLISH (minimum CEFR B2 for the English program)
- **Tuition:** Belgium hogeschool fees; EU and non-EU fees should be confirmed with Howest admissions
- **Sample courses / curriculum:**
 - Game programming with C++ (main focus)
 - Game engine optimisation (Unreal Engine)
 - Artificial intelligence and gameplay programming
 - UI development and 3D graphics
 - Augmented/virtual reality applications
 - Tools: Visual Studio, DirectX SDK
- **Research labs:**
 - DAE course pages — the content of each course is clearly published (e.g., Game Design 1, Programming 3) <https://www.digitalartsandentertainment.be/page/188/Game+Design+1>
- **Faculty:**
 - DAE ogretim kadrosu — 50den fazla ogretim gorevlisi ve idari personel kurumun kendi sayfasinda ismen listeleniyor — Full list <<https://www.digitalartsandentertainment.be/page/122/lecturers+&+administrators>>

Selected as one of the BEST GAME PROGRAMS IN THE WORLD (multiple times). 80% of graduates find employment within 2 MONTHS of graduation; 60% in Belgium, the rest abroad. Career paths: 3D programmer, console programmer, gameplay programmer, tool developer, shader developer. NOTE: The DAE page states it is not a Master's program, but the Howest general program list shows Master Game Technology - should be confirmed. The student dorm The Wing has opened. DAE was established in September 2006 with 180 students and ONE main branch; today it has 1,700 STUDENTS and SIX main branches: Game Development, Game Graphics Production, Independent Game Production, Game Sound Integration, 3D Animation Production, VFX. Industry companies are regularly invited to present to students. The institution PUBLISHES THE CURRICULUM COURSE BY COURSE and regularly hosts guest lectures (e.g., Mark Brown from Game Maker's Toolkit). The Master Game Technology program is also listed on the Howest site.

LUCA School of Arts — Genk (Campus C-mine) — also Brussels, Ghent, Leuven campuses

Game Design — undergraduate (Campus C-mine, Genk) and MASTER'S; also REPLAY Erasmus Joint Master's (Game Design) · *game programme*

- **Degree:** Bachelor + Master (+ Erasmus Mundus joint master's)
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** Dutch; THE EXCHANGE PROGRAM IS COMPLETELY IN ENGLISH (B2 level sufficient)
- **Tuition:** Belgium higher education fee; no fee for exchange students
- **Sample courses / curriculum:**
 - Concept — game mechanics and rules
 - Visuals — 2D (drawing, concept art) and 3D (Blender)
 - Technology — C# programming and Unity
 - Autumn semester (30 ECTS): Game-Based Learning, Advanced Animation, Business Prototyping, Personal Projects
 - Spring semester (22 ECTS): Advanced Production, Level Design, Game Analysis
- **Faculty listing:** The institution does not publish the names of faculty members on the exchange page; the International Office provides support for accommodation and practical matters.

LUCA is one of the few full master's programmes in Europe open to a semester of exchange in game design. Exchange students study in the same class as Belgian students in the 3rd YEAR - not a separate international group, real integration. Application: autumn/full year April 1, spring October 1. All teaching starts with an artistic perspective, supplemented by a strong technical foundation. LUCA also has a separate Erasmus Joint Master's (REPLAY - Game Design) and Re:Anima in animation. The international office provides support for accommodation (there is no dormitory on campus).

[Programme page](#)

Verification sources: <https://www.luca-arts.be/en/game-design-exchange-0> · <https://www.luca-arts.be/en>

Thomas More University of Applied Sciences — Mechelen

International Digital Experience Design (professional bachelor) — VR/AR and immersive experience focused · *game courses*

- **Degree:** Professional Bachelor
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** English (entirely)
- **Tuition:** Belgium higher education tuition — thomasmore.be
- **Sample courses / curriculum:**
 - NO TRADITIONAL CLASSES OR EXAMS: a real digital product or immersive experience is designed and produced each semester
 - Five categories: Explore, Create, Build, Engage, Integrate
 - VR and AR projects (2nd phase)
 - Presentation to PROFESSIONAL JURY at the end of the semester
 - Personal e-portfolio

VERY INTERESTING IN TERMS OF TEACHING MODEL: There are NO TRADITIONAL CLASSES OR EXAMS in the programme - it is entirely project-based. Students immediately apply the skills they learn to projects and present to a jury of industry professionals at the end of each semester. Entirely in ENGLISH. NOTE: Game development is not explicitly listed on the institution's page; the focus is on immersive experience, VR, and AR - hence the game focus is marked as Medium.

Birlesik Krallik

Change Note: The United Kingdom has not participated in the EU Erasmus+ program since 2021; it uses its own **Turing Scheme** program for international student and staff mobility.

Tuition (country rule): Tuition is charged; domestic and international student fees are separate, and international fees are significantly higher.

Abertay University — Dundee

BSc (Hons) Computer Games Technology · *game programme*

- **Degree:** BSc (Hons)
- **Duration:** 4 yr · **ECTS:** 480 SCQF (yilda 120 SCQF ~ 60 ECTS) ECTS
- **Language:** English
- **Tuition:** Scotland: 1,820 GBP/year (covered by SAAS) · England/Wales/Northern Ireland/Ireland: 9,535 GBP/year · International: 15,000 GBP/year (12,000-28,000 GBP scholarship opportunities)
- **Sample courses / curriculum:**
 - Graphics programming for console and PC
 - Network programming
 - Artificial intelligence programming
 - Building your own game engine
 - Low-level programming and mathematics
- **Research labs:**
 - InGAME (Innovation for Games and Media Enterprise) — one of nine AHRC-supported creative clusters for games in the UK <https://www.abertay.ac.uk/academic-faculties-and-graduate-school/faculty-of-design-informatics-and-business/department-of-games-technology-and-mathematics/>
 - Department of Games Technology and Mathematics + Department of Games and Arts
 - UK's largest PS5 laboratory (PlayStation First partner); Unreal Engine Gold Partner

Bournemouth University — NCCA — Bournemouth/Poole

BSc (Hons) Games Software Engineering / BSc (Hons) Games Design / BSc Games Technology / E-Sports Digital Technologies · *game programme*

- **Degree:** BSc (Hons)
- **Duration:** 3 yr · **ECTS:** 360 UK credits (~180 ECTS); staj yiliyla 4 yıl ECTS
- **Language:** English
- **Tuition:** UK ~£9,535-£9,790/year; international ~£17,000-£19,000/year [to be confirmed by institution]
- **Sample courses / curriculum:**
 - Games Software Engineering: programming techniques in modern game production, ARTIFICIAL INTELLIGENCE, PHYSICS, GAME ENGINES, and GRAPHICS PROGRAMMING
 - Games Design: contemporary video game design, production theory, game-specific art and content production
 - E-Sports Digital Technologies: business development, digital marketing, content production, publishing, tournament management
- **Research labs:**
 - National Centre for Computer Animation (NCCA) — UK's number one animation school, 3rd in Europe, 4th in the world <https://www.bournemouth.ac.uk/about/our-faculties/faculty-media-communication/national-centre-computer-animation/ncca-industry-links-accreditations>
 - National Research Centre for Computer Animation <https://www.bournemouth.ac.uk/research/centres-institutes/national-research-centre-computer-animation>
 - NCCA — industry connections and accreditations <https://www.bournemouth.ac.uk/about/our-faculties/faculty-media-communication/national-centre-computer-animation/ncca-industry-links-accreditations>
- **Faculty:**
 - Prof. Christos Gatzidis — Pro Vice Chancellor Dean — Faculty of Media, Science and Technology (NCCA is within this faculty) <https://staffprofiles.bournemouth.ac.uk/display/cgatzidis>
 - Dr Eike Anderson — Principal Academic — NCCA; started as a senior lecturer in Game Development in 2012 <https://staffprofiles.bournemouth.ac.uk/display/eanderson>

Game programmes are TIGA accredited. NCCA holds international recognition in animation/VFX (Hollywood connections). Part of the Faculty of Media, Science and Technology.

Goldsmiths, University of London — London

BSc (Hons) Games Programming / BSc (Hons) Games Development + MSc Computer Games Programming + MA Computer Games: Art & Design · *game programme*

- **Degree:** BSc (Hons) / MSc / MA
- **Duration:** 3 yr · **ECTS:** 360 UK credits (~180 ECTS); staj yiliyla 4 yıl ECTS
- **Language:** English
- **Tuition:** MSc Computer Games Programming: UK £14,300 (full-time) / £7,150 (part-time); international £22,000. Undergraduate international: £17,560-£24,590/year
- **Sample courses / curriculum:**
 - Game design and development with game engines and current tools
 - Optional industry placement year in Games Development undergraduate
 - Separate MA programme for art/design side
- **Research labs:**
 - Department of Computing — Interactive Technology area (creativity, interactivity, and the intersection of technology); game laboratories <https://www.gold.ac.uk/computing/>
- **Faculty:**
 - Prof. William Latham — Professor — Computing — evolutionary art, generative art, computer graphics; games and entertainment industry <https://www.gold.ac.uk/computing/people/w-latham/>
 - Prof. Frederic Fol Leymarie — Professor; MSc Computer Games & Entertainment programme leader <https://www.gold.ac.uk/computing/people/f-folleymarie/>
 - Ian Palmer — MA Computer Games Art & Design coordinator <https://www.gold.ac.uk/news/ma-computer-games-art-design/>

Courses are taught by game developers, designers, and artists with years of industry experience. Students can undertake placements in the game sector, participate in game jams and events. Being located in London provides an advantage in terms of industry connections. The MA Computer Games Art & Design programme is co-led by Ian Palmer, Prof. William Latham, and Prof. Frederic Fol Leymarie. The department also has an MPhil/PhD pathway in Arts & Computational Technology.

Tuition (country rule): Programs conducted in Czech are free; programs in English are charged.

Brno University of Technology — Brno

Game Media Studio (Faculty of Fine Arts / FaVU) · *game programme*

- **Degree:** Bachelor + Master's (studio-based art education)
- **Duration:** 3 yr · **ECTS:** — *(not yet collected)*
- **Language:** Czech (English options for international students to be researched)
- **Tuition:** Czech education is FREE; English programs are fee-paying (annual ~3,000-6,000 EUR). Exchange students do not pay fees. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Studio I-IV Game Media (semester studio courses)
 - The Role of Computer Games in Contemporary Art and Culture as a Communication Medium
 - Combining Traditional and Experimental Approaches
- **Research labs:**
 - Game Media Studio — FaVU BUT (one of 17 studios) <https://www.favu.vut.cz/en/studios/game-media>
- **Faculty:**
 - Lucie Polaskova — Studio Director
 - MgA. Vojtech Vanek — Independent Digital Game Developer; Animation, Illustration, Creative Writing
 - MgA. Tomáš Hrůza — Instructor — Video Technology

WARNING: This is an ART faculty. For technical aspects, the same university has the FIT faculty (Department of Computer Graphics and Multimedia) and an ENGLISH Master of Information Technology program (annual 3,000 EUR). The Game Media studio is linked to the Design program. The faculty offers both CZECH Bachelor's/Master's and ENGLISH MASTER'S degrees; the specific tracks available for the Game Media studio need to be confirmed with the institution. In the Czech Republic, a standard art Bachelor's degree lasts 3 years; the Design program to which the Game Media studio is linked follows this structure. The Master's degree is a separate 2-year track.

Verification sources: <https://www.fit.vut.cz/units/upgm/.en>

Charles University — Prague

Visual Computing and Game Development (Computer Science MSc specialization) · *game programme*

- **Degree:** Master of Science (MSc)
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** English
- **Tuition:** Czech education FREE; English programmes are fee-paying (annual ~3,000-6,000 EUR). Exchange students do not pay fees. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Computer Graphics Techniques
 - Artificial Intelligence and Intelligent Agent Systems in Games
 - Software Engineering for Large Scale Game Projects
 - Geometric Modelling, Rendering, Image Analysis
- **Research labs:**
 - Computer Graphics Group (CGG), MFF UK <https://cgg.mff.cuni.cz/>
 - gamedev.cuni.cz — game development portal <https://gamedev.cuni.cz/>
 - Computer Graphics Group (CGG) — MFF <https://cgg.mff.cuni.cz/>

- Game Development Group — Department of Software and Computer Science Education (KSVI) <https://ksvi.mff.cuni.cz/index.en.php>

- gamedev.cuni.cz — university's game development initiative <https://gamedev.cuni.cz/>

- **Faculty:**

- Cyril Brom — Assistant Professor; co-founder of GameDev initiative <https://gamedev.cuni.cz/contacts/>

- Vojtěch Černý — Game Development specialization coordinator — procedural content generation (PCG) <https://gamedev.cuni.cz/contacts/>

- Jakub Gemrot — Dr., researcher — artificial intelligence for virtual worlds and games <https://gamedev.cuni.cz/contacts/>

- Lukáš Kolek — Researcher; spin-off studio manager — serious games, design and user experience <https://gamedev.cuni.cz/contacts/>

- Vít Šisler — Assistant Professor — New Media (Faculty of Arts) — educational and serious video games <https://gamedev.cuni.cz/contacts/>

- Otakar Nieder — Engineering Director, Bohemia Interactive Simulations — industry connection; organizer of Prague Game Jam <https://gamedev.cuni.cz/contacts/>

- Martin Klíma — Game studio executive producer (founder of ALTAR interactive) — game design and production <https://gamedev.cuni.cz/contacts/>

Charles Games studio is university-affiliated. Bachelor's level is mostly in Czech. STAFF STRUCTURE IS WORTH NOTING: in addition to academics, SECTOR MANAGERS from studios like BOHEMIA INTERACTIVE SIMULATIONS and ALTAR interactive also teach. The Charles Games studio, which emerged from the university, produced award-winning historical/serious games like 'Attentat 1942' - a concrete example of research merging with production.

Danimarka

Tuition (country rule): Tuition is free for EU/EEA citizens and exchange students; fees are charged for students from outside the EU/EEA.

Aalborg University (AAU) — Medialogy — Aalborg and Copenhagen

Medialogy BSc + MSc · *game programme*

- **Degree:** BSc + MSc
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** English
- **Tuition:** EU/EEA: FREE. Non-EU: annual fee must be confirmed with AAU
- **Sample courses / curriculum:**
 - The science and technology behind groundbreaking interactive digital systems
 - Computer game development
 - 3D graphics production
 - Interactive media products
- **Research labs:**
 - Medialogy — conducted at both Aalborg and Copenhagen campuses; run with AAU's PROBLEM-BASED LEARNING (PBL) model
 - SensoramaLab <https://vbn.aau.dk/en/persons/tb/>
 - Media Innovation & Game Research <https://game.aau.dk/>
- **Faculty:**
 - Thomas Bjørner — Docent, Head of Media Innovation & Game Research — applied qualitative research, serious games <https://vbn.aau.dk/>
 - Anthony Lewis Brooks — Docent, Director of SensoramaLab — games for health, game rehabilitation, interaction design <https://vbn.aau.dk/en/persons/tb/>

One of Denmark's most established game/interactive media programmes. AAU's problem-based learning model (world-renowned PBL approach) is the backbone of the curriculum. FREE for English and EU citizens. Specialisations in the Medialogy programme include Computer Graphics, GAMES, and Interaction; offered at Aalborg and Copenhagen campuses. Research significantly focuses on serious games and the use of games for HEALTH/REHABILITATION.

Business Academy Copenhagen (EK) — Copenhagen

Computer Science (AP) / Software Development / Web Development / Data Analysis — no separate game program · game courses

- **Degree:** AP (Academy Profession, 2-2.5 years) + top-up professional bachelor
- **Duration:** 2.5 yr · **ECTS:** 150 ECTS *(from Bologna norm)*
- **Language:** WARNING: EK currently does not offer full-time programmes in ENGLISH; only EXCHANGE programmes are in English
- **Tuition:** EU/EEA/Switzerland: FREE. Non-EU: annual ~45,000-120,000 DKK. Exchange students do not pay fees. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Computer Science AP (2.5 years)
 - Data Analysis professional bachelor (1.5 years, 90 ECTS): data science, machine learning, business intelligence
 - Web Development / Multimedia Design

On July 1, 2025, KEA + Cphbusiness merged -> Business Academy Copenhagen (EK). The AP/top-up structure is short-cycle vocational higher education (EQF 5) — closely comparable to associate degree level. However, full-time programmes are not in English - English-taught pathways are mainly via exchange semesters. 13 campuses, 20,000 students. The Danish AP degree is awarded for 2 years / 120 ECTS or 2.5 years / 150 ECTS; the value here is for the 2.5-year pathway. It can be upgraded to a professional bachelor with a 1.5-year top-up.

IT University of Copenhagen — Copenhagen

MSc in Games (Games Technology / Game Design Tracks) · game programme

- **Degree:** Master of Science
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** English
- **Tuition:** EU/EEA/Switzerland: FREE. Non-EU: annual ~45,000-120,000 DKK. Exchange students do not pay tuition. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Game Technology
 - Game Design
- **Research labs:**
 - Center for Computer Games Research (ITU) — one of the oldest game research centers in Europe <https://en.itu.dk/>
 - Center for Digital Play (CDP) — a research environment examining the role of games and gaming in shaping technology and culture in digital societies <https://digitalplay.itu.dk/>
- **Faculty:**
 - Miguel Sicart — Professor, Center Director <https://digitalplay.itu.dk/people>
 - Hanna Wirman — Docent, GAMES program director <https://digitalplay.itu.dk/people>
 - Sebastian Risi — Professor — artificial intelligence / machine learning <https://digitalplay.itu.dk/people>
 - Jichen Zhu — Professor <https://digitalplay.itu.dk/people>
 - Hans-Joachim Backe — Docent <https://digitalplay.itu.dk/people>
 - Paolo Burelli — Docent <https://digitalplay.itu.dk/people>
 - Elisa Mekler — Docent <https://digitalplay.itu.dk/people>

- Rune Kristian Lundedal Nielsen — Docent <https://digitalplay.itu.dk/people>
- Anders Sundnes Løvlie — Docent <https://digitalplay.itu.dk/people>
- Paweł Grabarczyk — Docent <https://digitalplay.itu.dk/people>

THERE IS NO UNDERGRADUATE GAME PROGRAM. ITU offers undergraduate level Software Development, Data Science, Digital Design and Interactive Technologies - they publish a course list for exchange students. The CDP's scope of work ranges from machine learning trained on games to video game communities and practices. One of the founding figures of game studies, Espen Aarseth, is also among the former members of the center.

University of Southern Denmark (SDU) — Kolding

Game Development and Learning Technology — BSc in Engineering + MSc in Engineering (5-year integrated route) · game programme

- **Degree:** BSc + MSc in Engineering
- **Duration:** 5 yr · **ECTS:** 300 ECTS
- **Language:** English
- **Tuition:** EU/EEA: FREE. Non-EU: annual fee must be confirmed with SDU
- **Sample courses / curriculum:**
 - Software engineering for games (master's specialisation)
 - Learning technology — educational games
 - Technical depth + applied project
- **Research labs:**
 - SDU Game Development and Learning Technology research group <https://www.sdu.dk/en/forskning/sdugamedevelopmentandlearningtechnology>
 - SDU Metaverse Lab <https://www.sdu.dk/en/om-sdu/sdu-campusser/kolding>
 - Mærsk Mc-Kinney Møller Institute — an institute where game development and learning technology programmes are conducted <https://www.sdu.dk/en/uddannelse/bachelor/spiludvikling-laeringsteknologi>
- **Faculty:**
 - Anders Drachen — Professor, Head of Metaverse Lab — game analytics <https://andersdrachen.com/about/international-games-expert-is-bringing-sdu-to-the-next-level-of-the-metaverse/>
 - Lasse Juel Larsen — Head of Studies — game studies, game design, software development <https://www.sdu.dk/staff/ljl>

DENMARK'S MOST COMPREHENSIVE game programme: a 5-YEAR INTEGRATED route from bachelor's to master's, finishing with a specialisation in software engineering for games. The educational games (learning technology) dimension has an educational-games / learning-technology aspect. The institution promotes the programme as 'the most robust programme in technical game development in Europe'. There are bachelor's (BSc in Engineering) and master's (MSc in Engineering — Game Development and Learning Technology) tracks; Kolding campus.

Metropolia University of Applied Sciences — Helsinki

3D Game Art (BA) — taught in English; Game Design (BA) first intake spring 2027; XR Design (BA) · *game programme*

- **Degree:** Bachelor of Engineering (UAS) — Information and Communication Technology, Game Applications major
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** Free for EU/EEA citizens · Non-EU/EEA students 12,000 EUR/year
- **Sample courses / curriculum:**
 - Virtual environment and character design
 - Product design in games and new technologies
 - Project management, programming and artificial intelligence technologies
 - Industry-like production teams, client projects
 - Object-oriented programming with C++
 - Game engines
 - Fundamentals of game design
 - 2D/3D game art
 - Web and mobile programming
- **Faculty:**
 - Antti Laiho — Senior Lecturer; Head of Game Applications major — game design, game development, game graphics <https://peoplefinder.metropolia.fi/en/profile/5140/staff/Antti-Laiho>
 - Markus Norrena — Senior Lecturer — game design <https://peoplefinder.metropolia.fi/>

In addition to the Game Applications major, there are SEPARATE GAME DESIGN and 3D GAME ART bachelor's programmes and an XR Design programme - showcasing the diversification of game education in Finland. Metropolia conducts international collaborations in game education; for example, a game development training was completed for 25 Saudi Arabian students - indicating the institution's openness to international educational partnerships.

Xamk – South-Eastern Finland University of Applied Sciences — Mikkeli/Kotka/Kouvola

Game Design · *game programme*

- **Degree:** Bachelor of Culture and Arts
- **Duration:** 4 yr · **ECTS:** 180 ECTS
- **Language:** English
- **Tuition:** EU/EEA citizens: FREE. Non-EU: annual ~€8,000-12,000. Exchange students do not pay fees. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Fundamentals of Design
 - Game Design and Narrative
 - Game Art (2D/3D assets, animation)
 - Game Development
 - Production and Business Management
 - Elective: 3D Environment Design, VFX in Games, Xamk Game Studio
 - Thesis Project
 - Core Competence 105 ECTS · Complementary Competence 75 ECTS · Practical Training 30 ECTS · Elective 10 ECTS
 - Six modules: collaborative work, fundamentals of design, game design, game art, game development, game production/business management
 - Final Thesis Project

- **Research labs:**

- Xamk Game Studios <https://www.xamk.fi/en/project/xamk-game-studios/>

- Medusa Studio — motion capture, VIRTUAL PRODUCTION technology LED wall and custom software laboratories; open to students outside of class hours <https://www.xamk.fi/en/degree-programmes/bachelor-of-culture-and-arts-game-design/>

- **Faculty:**

- Suvi Pylvänen — Senior Lecturer — programme contact person — Suvi.Pylvanen@xamk.fi · +358 44 702 8354 <https://www.xamk.fi/en/degree-programmes/bachelor-of-culture-and-arts-game-design/>

105 compulsory + 75 elective ECTS (30 ECTS including internship). Options available at Kouvola campus (21 places) and ONLINE (25 places). Xamk also offers English ICT (B.Eng.) and Cyber Security bachelor's degrees. Game programmes at KOUVOLA campus: Bachelor of Culture and Arts with separate degrees in both GAME DESIGN and GAME ART. Open to EXCHANGE STUDENTS is the 'Game programming & Game technologies' package and XAMK SUMMER SCHOOL OF GAMING - directly suitable for short-term mobility. An open university course in Video Games Development worth 12 ECTS is also offered. 21 places at Kouvola campus, 25 places ONLINE - limited game degrees with remote options.

[Programme page](#)

Tuition (country rule): Annual fees at public universities are low (increased fees may apply for non-EU students); private schools (école) set their own fees, which are much higher.

Cnam-Enjmin — Angouleme

Cnam-Enjmin — French Public Game School: Licence Informatique parcours Jeux Video + two Professional Licences (Digital Arts / Game Design) + Diploma in Computer Science and Multimedia + Master JMIN + English International Master + Mastere Specialise · *game programme*

- **Degree:** Bachelor, engineering diploma and master's degree (multi-level)
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** French; there is an international master's programme in English
- **Tuition:** Public institution — French state university fees (~170-380 EUR/year); Mastere Specialise is fee-paying
- **Sample courses / curriculum:**
 - Game design and interactive storytelling
 - Graphic design
 - Sound design
 - Digital architectures and software
 - Project management and marketing
- **Faculty:**
 - Vincent Caruso — Pedagogical Director (GOBELINS Paris) <https://enjmin.cnam.fr/formations/master-jeux-et-medias-interactifs-numeriques/equipe-pedagogique/>
 - Stéphanie Mader — Diploma Director (Cnam) <https://enjmin.cnam.fr/formations/master-jeux-et-medias-interactifs-numeriques/equipe-pedagogique/>
 - Catherine Rolland — Faculty Member — practical use of games; transitioned to the gaming field after 12 years in the pharmaceutical sector <https://enjmin.cnam.fr/formations/master-jeux-et-medias-interactifs-numeriques/equipe-pedagogique/>

France's MOST ESTABLISHED PUBLIC GAME SCHOOL (2001, Angouleme, within Pole Image Magelis). Linked to Cnam; Master JMIN jointly accredited with Université de Poitiers. Courses are taught by experts from Cnam, Université de Poitiers, and GOBELINS Paris. WARNING: Not an independent Erasmus charter holder — mobility runs via Cnam or Université de Poitiers. The programme also offers bachelor-level study, relevant for short-cycle pathways. TEACHING STAFF STRUCTURE IS WORTH NOTING: In addition to faculty-researchers from Cnam and Poitiers University, APPROXIMATELY FORTY SECTOR PROFESSIONALS teach, making up 50% of ALL TEACHING. Enjmin is France's public school dedicated to video games.

Guney Kore

Tuition (country rule): Tuition is charged; private universities are significantly more expensive than public ones. Scholarship opportunities for international students are common.

ChungKang College of Cultural Industries — Icheon, Gyeonggi

School of Game (3-YEAR ASSOCIATE DEGREE) · Department of Next-Generation Game Content (undergraduate level)
— under the same roof as animation, webtoon/manhwa, and performing arts · *game programme*

- **Degree:** Associate Degree (3 years) + bachelor's (BA) pathway — short-cycle / associate-level Korean example (EQF 5)
- **Duration:** 3 yr
- **Language:** Korean
- **Tuition:** To be confirmed with the institution
- **Sample courses / curriculum:**
 - Game development
 - Curriculum in common cultural industries with animation and webtoon
 - Game production projects (working in TEAMS with different roles)
 - Modelling
 - Character design
 - Game theory and application
 - Next-generation game content

PROFESSIONAL COLLEGE FOCUSED ON CULTURAL INDUSTRIES - the educational arm of Korea's cultural export strategy; short-cycle structure. There is a pathway from associate to bachelor's (Next-Generation Game Content). They have established a separate structure for accepting INTERNATIONAL AND EXCHANGE STUDENTS, declaring their openness to global partnerships - a suitable institution for communication.

[Programme page](#)

Verification sources: https://en.wikipedia.org/wiki/Chungkang_College_of_Cultural_Industries

Hongik University — Department of Games — Sejong campus (main campus Seoul)

Department of Games (Engineering) — undergraduate game (video/game) major at Sejong campus + postgraduate programme · *game programme*

- **Degree:** Bachelor's + postgraduate (Master/PhD)
- **Duration:** 4 yr
- **Language:** Korean
- **Tuition:** Private university — to be confirmed with Hongik
- **Sample courses / curriculum:**
 - Game engineering
 - Game graphics and video
 - Game design

Hongik is South Korea's oldest ART AND DESIGN university; the game department is under the engineering wing at Sejong campus. Strong ties with the Korean game industry.

[Programme page](#)

Sangmyung University — Department of Game — Seoul

Department of Game (College of ICT Convergence) — a separate GAME DEPARTMENT · *game programme*

- **Degree:** Bachelor's (in conjunction with related master's and doctoral programmes)

- **Duration:** 4 yr
- **Language:** Korean
- **Tuition:** Private university — to be confirmed with Sangmyung
- **Sample courses / curriculum:**
 - Game software planning, design, development
 - Cultural and artistic knowledge: character, storytelling, animation
 - Engineering aspect: mathematics and programming
 - Social sciences perspective
 - Game planning and design
 - Character and storytelling
 - Animation
 - Mathematics and programming
 - Software engineering
 - Game psychology
 - Entrepreneurship / game content management

The existence of a SEPARATE GAME DEPARTMENT within the university is noteworthy - within the College of ICT Convergence, Seoul campus. Curriculum clearly combines art/culture with engineering. The bachelor's-master's-doctorate chain is ORGANICALLY linked; students develop their own game ideas through content ventures and mentorship programmes.

[Programme page](#)

Tuition (country rule): Full-time state quotas at public universities are free; private institutions charge fees.

Algebra Bernays University (Sveuciliste Algebra) — Zagreb

Game Development — Bachelor's (Professional Bachelor, 4 years) and Master's (Master of Game Development) pathways · *game programme*

- **Degree:** Professional Bachelor + Master
- **Duration:** 4 yr · **ECTS:** 240 ECTS *(from Bologna norm)*
- **Language:** English and Croatian (international student admission available)
- **Tuition:** Master's ~7,400 EUR (studyincroatia.eu); bachelor's tuition to be confirmed from algebra.hr
- **Sample courses / curriculum:**
 - Game Programming
 - Game Design
 - Game Art (various art disciplines)
 - Practice: Development of Computer Games (applied game development)
- **Faculty:**
 - Algebra ogretim kadrosu — kurum ogretim gorevlilerini kendi sayfasinda listeliyor — Instructors and collaborators — composed mainly of SECTOR EXPERTS with years of experience in game development <https://www.algebra.hr/sveuciliste/en/lecturers-and-associates/>

THE ONLY game development degree in CROATIA. The program establishes video game development as an inseparable whole of PROGRAMMING + DESIGN + ART. There is a pathway from bachelor's to master's. The institution also offers a Game Design module in the international summer school. NOTE: algebra.hr restricts automatic access; information was obtained through searches on the institution's own pages, direct communication is recommended for exact tuition and ECTS. The Master's in Computer Game Development is the FIRST of its kind in Croatia. Faculty members collaboratively design and teach courses such as Computer Game Planning, Narrative Design, and Scenario Creation.

Breda University of Applied Sciences (BUas) — Breda

Creative Media and Game Technologies (CMGT) · *game programme*

- **Degree:** Bachelor (HBO)
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** Legal tuition fee 3,650 EUR (2026-27); additional budget for software/travel
- **Sample courses / curriculum:**
 - Visual Arts Track: 3D Modelling, Animation, Character Design
 - Design & Production Track: Game Design, Level Design, Producing
 - Programming Track: Software/Hardware Engineering
 - Project-Based Learning in Game Laboratory
- **Research labs:**
 - Creative and Entertainment Games Professorship — research unit linked to Bachelor's (Creative Media and Game Technologies) and Master's (Master Game Technology) programmes <https://www.buas.nl/en/research/professorships/creative-and-entertainment-games>
- **Faculty:**
 - Prof. Mata Haggis-Burridge — Professor (lector) — Creative and Entertainment Games — Content, production, and cultural context of artistic and entertainment video games <https://www.buas.nl/en/research/professorships/creative-and-entertainment-games>

Accelerated track for VWO graduates lasts 3 years. Unreal Engine Academic Partner. Also offers a Bachelor's in Applied Data Science & AI at the same institution. Professors conduct original research, provide industry consultancy, and participate in policy networks and sector conferences; collaborating with the entertainment games, serious games, and digital media sectors.

[Programme page](#)

Fontys University of Applied Sciences — Eindhoven

ICT & Game Design and Technology (EXCHANGE programme) · *game programme*

- **Degree:** Exchange programme (30 ECTS/semester)
- **Duration:** — *(no single value applies)* · **ECTS:** 30 ECTS
- **Language:** English
- **Tuition:** EU/EEA: legal tuition fee ~2,600 EUR/year (HBO and WO). Non-EU: annual ~8,000-12,000 EUR. Exchange students do not pay fees. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Entertainment and Applied Game Development with AR/VR
 - Current Game Development Tools
 - Real Client Projects in Multidisciplinary Teams
- **Research labs:**
 - Lectoraat Interaction Design — research unit working on applied (serious) games and XR <https://www.fontys.nl/en/Research/Interaction-design.htm>
 - Fontys InnovationLab <https://www.fontysinnovationlab.nl/innovations-insight/innovations-insight-january-23/ict-game-design-and-technology/>
- **Faculty:**
 - Michael Schifferling — Term Coordinator and Game Design Lecturer <https://www.fontys.nl/en/Study-at-Fontys/Exchange-programmes/ICT-Game-Design-and-Technology.htm>
 - Mark de Graaf — Professor (Lecturer) — Interaction Design <https://www.fontys.nl/en/Research/Interaction-design.htm>

Fontys has a READY programme in FOUR areas for exchange students: ICT & Game Design and Technology (games), Software Engineering Foundations (Venlo), ICT & Media Design, Advanced Informatics Data Science/AI + AI For Society. In the GDD track, students can establish their OWN GAME STUDIOS as a project (e.g. Dogfood Studios) - entrepreneurship is embedded in the curriculum.

Hanze University of Applied Sciences — Groningen

Creative Media and Game Technologies (CMGT) · *game programme*

- **Degree:** Bachelor (HBO)
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** EU/EEA: legal tuition fee ~2,600 EUR/year (HBO and WO). Non-EU: annual ~8,000-12,000 EUR. Exchange students do not pay fees. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - First year: experimenting with different roles
 - Subsequently specialising in interactive media or game expertise
- **Faculty:**
 - Sean A. Smith — Senior Lecturer — User-Centred Design (Creative Media and Game Technologies) <https://hanze.academia.edu/SeanSmith>

Hanze also offers a HBO-ICT degree (Business IT & Management, Network & Security Engineering, SOFTWARE ENGINEERING majors). IIA contact: erasmusagreements@org.hanze.nl. Erasmus code NL GRONING03. The four-year program is COMPLETELY IN ENGLISH; students work on game concepts, 2D and 3D visual production, game development, and game production. There is also a separate Game Design & Development MINOR available for exchange students.

[Programme page](#)

NHL Stenden University of Applied Sciences — Leeuwarden

Game Development & 3D (exchange programme / minor) · *game programme*

- **Degree:** Minor / exchange programme
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** English
- **Tuition:** EU/EEA: legal tuition fee ~2,600 EUR/year (HBO and WO). Non-EU: annual ~8,000-12,000 EUR. Exchange students do not pay fees. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Game Development
 - 3D Modelling and Animation
- **Research labs:**
 - Lectoraat Design Driven Innovation and Serious Gaming (Leeuwarden) — related to 'Serious Gaming' and 'Design Driven Innovation' HBO master's programmes <https://www.nhlstenden.com/en/exchange-programmes/communication-media/game-development-3d>
- **Faculty:**
 - Derek Kuipers — Professor (lector) — Design Driven Innovation and Serious Gaming — design-driven innovation and serious games <https://www.nhlstenden.com/en/exchange-programmes/communication-media/game-development-3d>

In addition to NHL Stenden, there are Computer Science and Information Technology bachelor's degrees with a Computer Vision & Data Science exchange minor. Grand Tour locations (South Africa, Bali, Thailand) are available.

Saxion University of Applied Sciences — Enschede/Deventer/Apeldoorn

Creative Media and Game Technologies (CMGT) — exchange programme · *game programme*

- **Degree:** Exchange programme (5 months / one semester)
- **Duration:** — *(no single value applies)* · **ECTS:** 30 ECTS
- **Language:** English

- **Tuition:** EU/EEA: legal tuition fee ~2,600 EUR/year (HBO and WO). Non-EU: annual ~8,000-12,000 EUR. Exchange students do not pay fees. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Interactive Media or Game Specialization (choice after the 1st year)
 - Creative Media and Game Technologies
- **Research labs:**
 - School of Creative Technology (ACT), Enschede — CMGT is in this school; together with Fashion & Textile Technologies and Creative Business <https://www.saxion.edu/about-saxion>
- **Faculty listing:** The institution does not publish faculty names on the programme page.

February and September intakes, Enschede campus. Saxion also has a SOFTWARE ENGINEERING programme for EXCHANGE STUDENTS (30 ECTS per semester, personalized plan) and Master ICT: Software Engineering with a specialization in Data & AI Engineering. Erasmus code NL ENSCHED03.

[Programme page](#)

Utrecht University — Utrecht

Game and Media Technology (MSc) · *game courses*

- **Degree:** Master of Science (Computer Science)
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** English
- **Tuition:** EU/EEA: 2,694 EUR/year (legal fee). Non-EU: 25,306 EUR/year (2026-27)
- **Sample courses / curriculum:**
 - Modelling Virtual Worlds
 - Creating Character Animation and Behaviour
 - Computer Vision-Based Video Analysis
 - Building Multi-Sensory Interfaces

THE ONLY GAME RESEARCH MASTER'S IN THE NETHERLANDS. 32% international students. February and September intake. Joint projects are conducted with HKU (art school). Utrecht also offers Master's in Data Science and Applied Data Science and Computing Science.

[Programme page](#)

Windesheim University of Applied Sciences — Zwolle

Exchange Game Studio + Exchange Games Programming (EXCHANGE semesters) · *game programme*

- **Degree:** Exchange program (30 ECTS/semester)
- **Duration:** — *(no single value applies)* · **ECTS:** 30 ECTS
- **Language:** English
- **Tuition:** EU/EEA: legal tuition fee ~€2,600/year (HBO and WO). Non-EU: annual ~€8,000-12,000. Exchange students do not pay tuition. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Game Studio: real client projects at 038Games game studio
 - Games Programming: game algorithms, artificial intelligence, C++
 - Mobile & Web Solutions (for front-end)
 - Data-driven Innovation (for data)
- **Faculty:**
 - Puja Buter-Fadte — Instructor — Content Coordinator for Game Studio program <https://www.windesheim.com/study-programmes/exchange-programmes/exchange-programmes/game-studio>

- Matthieu van Bekkum — Instructor — Contact person for Games Programming <https://www.windesheim.com/study-programmes/exchange-programmes/exchange-programmes/games-programming>
- Bertrand Weegenaar — Contact person for Game Studio teaching staff <https://www.windesheim.com/study-programmes/exchange-programmes/exchange-programmes/game-studio>

Windesheim offers ready-made 30-ECTS English exchange semesters across game, programming, web, and data tracks. THERE ARE TWO SEPARATE PACKAGES FOR EXCHANGE: 'Exchange Game Studio' and 'Exchange Games Programming' - both are specifically designed for incoming exchange students and contact persons are named.

[Programme page](#)

Hong Kong

Tuition (country rule): Tuition at publicly funded universities is fixed and low for local students; non-local students pay significantly higher fees.

City University of Hong Kong (CityUHK) — School of Creative Media — Hong Kong

BA Creative Media — ONE of SIX specializations GAME & PLAYABLE MEDIA (others: Animation, Cinema & Photography, Critical Theory & Practices, New Media Art, Sound Art); also BSc Creative Media and BAS New Media · game programme

- **Degree:** BA / BSc / BAS
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Government-funded university — cityu.edu.hk
- **Sample courses / curriculum:**
 - Creative Media Studio I
 - Creative Coding
 - Introduction to Media Computing
 - New Media Art
 - Cinematography and Video Post-Production
 - Physical Computing
 - Narrative Strategies
 - Research-Based Final Thesis/Project (can be creative work or critical writing)
- **Research labs:**
 - School of Creative Media researchers <https://scholars.cityu.edu.hk/en/organisations/school-of-creative-media/persons/>
- **Faculty:**
 - Prof. Espen Aarseth — Dean and Chair Professor of Game Studies — founding figure in the field of game studies <https://www.scm.cityu.edu.hk/people/staff>
 - Leon Y. Xiao — Associate Professor — video game law; regulation of loot boxes, gacha, and gambling-like earning mechanisms <https://scholars.cityu.edu.hk/en/persons/leon-y-xiao/>

Students choose their major AFTER ONE YEAR of study - there is no pressure for early specialization. Game, art, and computer science are integrated; the BSc pathway combines computer science courses. Internships and STUDY ABROAD options are explicitly included in the curriculum. NOTABLE: The school's dean, ESPEN AARSETH, is a founding figure in the field of game studies; he was previously a member of the Center for Digital Play in Copenhagen (that record is also in the catalogue). An unusual research pathway on the LEGAL regulation of games is also conducted here.

Hong Kong Baptist University (HKBU) — Department of Interactive Media — Hong Kong

Bachelor of Communication (Honours) — Game Design and Animation Major (School of Communication) · game programme

- **Degree:** Bachelor of Communication (Hons)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Government-funded university — hkbu.edu.hk
- **Sample courses / curriculum:**

- Game Design
- Computer Animation
- Interactive Media

- **Research labs:**

- Department of Interactive Media — staff list <https://imd.hkbu.edu.hk/faculty-member.html>

- **Faculty:**

- Prof. Bu Zhong — Professor; Founding Head of the Department of Interactive Media <https://imd.hkbu.edu.hk/faculty-member/Prof-ZHONG-Bu.html>

Promoted as the first of its kind in higher education in Hong Kong. An integrated curriculum that equally emphasizes game design and computer animation. A DIGITAL PORTFOLIO and a statement of intent not exceeding 200 words are required for application; creativity, visual/design literacy, and game/animation potential are assessed. Being part of a COMMUNICATION FACULTY is noteworthy - positioning games as a narrative and communication medium.

[Programme page](#)

The Hong Kong Polytechnic University (PolyU) — School of Design — Hong Kong

BA (Hons) Scheme in Design — one of nine specializations IMMERSIVE MEDIA AND GAME DESIGN · *game programme*

- **Degree:** BA (Hons)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Government-funded university — polyu.edu.hk

- **Sample courses / curriculum:**

- Year 1: Common Design Foundation
- Year 2: One of four design clusters (Communication / Environment / Product Experience / Service Design)
- Years 3-4: Discipline-specific work and final project in the chosen specialization

Hong Kong's leading four-year undergraduate design program. Specialization is chosen at the end of the second year, and the school decides based on the student's preference, PORTFOLIO assessment, interview, and GPA. The Immersive Media and Game Design specialization is listed as subject to approval on the institution's own page - current status should be confirmed.

Vocational Training Council (VTC) — IVE — Hong Kong

Higher Diploma in Games and Animation (IT114206) · Higher Diploma in Game Software Development (IT114107) · *game programme*

- **Degree:** Higher Diploma (2 years) — short-cycle / associate level (EQF 5)
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** Government vocational education institution — vtc.edu.hk

- **Sample courses / curriculum:**

- Common first semester, followed by three branches: Games / Animation / Animation Greater Bay Area Practice
- Programming
- 3D Visualisation
- Game Design
- Digital Media Production
- INDUSTRIAL ATTACHMENT

- Final Project

Graduates can transition to BSc (Hons) programmes at local universities such as CityU/HKBU/CUHK/PolyU and abroad (University of the West of England and other UK/Australian institutions) - an example of institutionalised transition from a short-cycle programme to a bachelor's degree. The programme meets the academic requirements for associate membership of the Hong Kong Computer Society.

Irlanda

Tuition (country rule): Tuition for undergraduate studies is covered by the state for EU/EEA citizens (only student contribution is paid); non-EU students pay full fees.

Atlantic Technological University (ATU) — Galway / Sligo

Bachelor of Science in Games Development · *game programme*

- **Degree:** BSc
 - **Duration:** 4 yr · **ECTS:** 240 ECTS *(from Bologna norm)*
 - **Language:** English
 - **Tuition:** EU/EEA: student contribution; Non-EU to be confirmed by ATU
 - **Sample courses / curriculum:**
 - Game development and programming
 - **Research labs:**
 - Game development computer lab and peripheral hardware; new high-tech computer classrooms opened in 2023 (ATU Sligo)
- <https://www.atu.ie/courses/bachelor-of-science-games-development>
- **Faculty listing:** The institution does not publish faculty names at the course level; the programme is linked to the Faculty of Engineering and Computing > School of Computing > Department of Computing and Electronic Engineering. Contact: international.sligo@atu.ie

Technological university; focused on applied/professional education. NOTE: ATU's own course page describes this programme as 3 YEARS / NFQ Level 7 (Bachelor of Science); Level 8 honours degree may be a separate pathway. The first year is COMMON across all computer programmes, with game specialisation starting in the 2nd year. The 3rd year includes a mandatory work placement, and the institution states that over 70% of students secure employment directly from this placement. Duration and credits should be confirmed with ATU. Structural position: Faculty of Engineering and Computing > School of Computing > Department of Computing and Electronic Engineering; Sligo campus, NFQ Level 7, 3 years, CAO code AU848. The institution does not publish faculty names; contact: international.sligo@atu.ie

IADT — Dun Laoghaire Institute of Art, Design and Technology — Dublin (Dun Laoghaire)

BA (Hons) in Game Design · *game programme*

- **Degree:** BA (Hons)
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** EU/EEA: Ireland free fee programme (~3,000 EUR student contribution). Non-EU: annual ~13,000-15,000 EUR
- **Sample courses / curriculum:**
 - Game design and development
 - Combination of art, design, and technology
 - 1st year: paper prototyping, programming, ludology, 2D game development
 - 2nd year: advanced mechanics, 3D modelling, level design, character production
 - 3rd year: rapid prototyping, sound design, industry preparation and PLACEMENT
 - 4th year: final projects on new technologies and game-based learning
- **Faculty:**
 - Dr Naoise Collins — Programme Coordinator — Naoise.collins@iadt.ie <https://iadt.ie/courses/game-design/>

IADT already runs staff and student mobility with HdM Stuttgart and Aalto University. BA (Hons) Game Design (DL854), NFQ Level 8, 4 years. Students produce MORE THAN EIGHT GAME PROJECTS in four years - one major project each semester. The project structure is established with contributions from leading IRISH GAME STUDIOS. Unreal, Unity, Blender, Maya, and Photoshop are used.

TU Dublin (Technological University Dublin) — Dublin (Grangegorman)

Game Design (TU984) · *game programme*

- **Degree:** BA/BSc (Hons)
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** EU/EEA: student contribution; Non-EU annual fee to be confirmed by TU Dublin
- **Sample courses / curriculum:**
 - Mobile, console, PC games
 - DESKTOP and CARD games
 - Serious games
 - Experimental games
 - Creation AND examination of games (as a field of study)
- **Faculty:**
 - John Healy — Lecturer (School of Media) — game-based learning and game design practice <https://researchprofiles.tudublin.ie/en/persons/john-p-healy/>

A broad curriculum covering not only digital games but also DESKTOP/CARD and EXPERIMENTAL games. Technological university structure (applied + academic mix).

Tuition (country rule): Fees at public universities are calculated based on credits and vary by autonomous region; private universities and centers set their own fees.

ESAT — Escuela Superior de Arte y Tecnología — Valencia

LEVEL 5 (EQF 5) higher education qualifications: Art for Video Games / Video Game Programming / Video Game Design / Art and Digital Interactive Design · *game programme*

- **Degree:** Level 5 Higher Education Qualification — short-cycle / associate level (EQF 5)
- **Duration:** 2 yr · **ECTS:** 120 ECTS *(from Bologna norm)*
- **Language:** Spanish (English course availability to be inquired)
- **Tuition:** Private school — to be confirmed by ESAT

- **Sample courses / curriculum:**

- Video Game Programming: game programming
- Video Game Design: game design
- Art for Video Games: game art
- Art and Digital Interactive Design

- **Faculty listing:** The institution does not publish the names of faculty members.

In 2023, selected as SPAIN'S NUMBER 1, EUROPE'S 4TH, and the WORLD'S 7TH game development school. Located at the heart of the Valencia Game City initiative. One of the few short-cycle game schools in Europe (alongside e.g. P.PORTO ESMAD CTeSP).

UDIT – Universidad de Diseño, Innovación y Tecnología — Madrid

Bachelor's Degree in Game Design and Development · *game programme*

- **Degree:** Bachelor
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** Spanish
- **Tuition:** Private university — price not published on the site; public scholarships and internal support available. Must be confirmed with admissions.
- **Sample courses / curriculum:**
 - Programming (C++, C#, Node.js, Angular)
 - Level Design
 - Interactive Narrative
 - Game Prototyping
 - Unity and Unreal Engine
- **Research labs:**
 - Media Lab — Motion Capture
 - VR / AR / MR / XR equipment, high-performance workstations, Wacom Cintiq 22 tablet classrooms
- **Faculty:**
 - Dr. David Alonso Urbano — Program Director

85% of the teaching staff are ACTIVE professionals in the gaming industry. The first institution in Spain to offer an official degree in video games (formerly ESNE). Udit also offers Spain's first official FULL-STACK software development degree and Applied Mathematics for Software Engineering. Contact: orientacion.universitaria@udit.es

Universidad Rey Juan Carlos — Mostoles/Madrid

Grado en Diseño y Desarrollo de Videojuegos (ETSII) · *game programme*

- **Degree:** Grado
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** Spanish
- **Tuition:** Fee per credit at public universities (annual ~1,000-2,500 EUR). Annual fees at private institutions ~8,000-15,000 EUR. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Audiovisual narrative
 - Scene modeling
 - Game programming and production
 - Game art
 - Sound effects
- **Faculty:**
 - Prof. Dr. Maria Zapata Caceres — Program coordinator
 - Prof. Dr. Aaron Suja Garrido — Madrid-Quintana campus coordinator

Double diploma option with Ingenieria de Computadores. Campuses in Mostoles and Madrid-Quintana. URJC also offers Bachelor's in Software Engineering (Euro-Inf) and Data Science and Engineering in the same faculty.

Universitat Jaume I — Castellón de la Plana

Design and Development of Video Games · *game programme*

- **Degree:** Bachelor's Degree
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** Catalan (Valencian) / Spanish
- **Tuition:** State university — fee per credit, annual ~1,000-2,500 EUR (EU)
- **Sample courses / curriculum:**
 - Video game design and development
 - Visualisation of interactive virtual worlds
 - Audiovisual production
 - Fundamentals of computer engineering
- **Research labs:**
 - Video Games Research Group (UJI portalcientific) <https://portalcientific.uji.es/grupos/199737/detalle>
 - DiNaVi — UJI game and visual culture research unit <https://www.culturavisual.uji.es/videojuegos/>
- **Faculty:**
 - David Rodríguez Sánchez — Director of the Bachelor's programme in Design and Development of Video Games <https://www.uji.es/estudis/base/2024/graus/videojocs/>

Part of the Escola Superior de Tecnologia i Ciències Experimentals, 60 places available. UJI has been providing technology and communication education for 20 years. IMPORTANT: The institution is CASTELLO DE LA PLANADA (not in Valencia). UJI also offers Bachelor's degrees in Computer Engineering and Computational Mathematics.

[Programme page](#)

Verification sources: <https://portalcientific.uji.es/grupos/199737/detalle>

Universitat Politècnica de Catalunya (UPC) — Barcelona

Bachelors degree in Video Game Design and Development (UPC CITM) · *game programme*

- **Degree:** Degree / Bachelor
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English group AVAILABLE (also Catalan/Spanish)
- **Tuition:** State universities charge per credit (annual ~1,000-2,500 EUR). Private institutions charge annually ~8,000-15,000 EUR. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Game Programming
 - Game Design
 - Graphics and Multimedia Technologies
- **Research labs:**
 - CITM — Centre de la Imatge i la Tecnologia Multimèdia (Barcelona and Terrassa campuses; seminar and research program) <https://www.citm.upc.edu/ing/recerca/seminaris/>
- **Faculty:**
 - Carles Sora — Director of CITM <https://www.citm.upc.edu/ing/estudis/grau-videojocs-bcn/>
 - Marta Fernández Ruiz — Docent; Bachelor's Coordinator in Video Game Design and Development — serious game design, XR fundamentals, interactive storytelling (PhD in Game Studies) <https://www.citm.upc.edu/ing/estudis/grau-videojocs-bcn/>
 - Joan Pons — Instructor <https://www.citm.upc.edu/ing/estudis/grau-videojocs-bcn/>

WARNING: The program is at CITM center, not ETSETB (Barcelona/Terrassa). UPC also offers a Bachelor's in Data Science and Engineering in English and CITM offers a Bachelor's in Digital Design and Multimedia Technologies. CITM-UPC is recognized as a reference training center for the gaming sector in Catalonia; graduates work as programmers, designers, technical and 3D artists, animators, DATA ANALYSTS, and producers. The Bachelor's is offered in ENGLISH. UPC School also runs a continuous education Master's in 'Advanced Programming for AAA Video Games'.

Universitat Politècnica de València — Valencia

Degree in Game Design and Development of Video Games and Interactive Experiences · *game programme*

- **Degree:** Degree — Official degree from UPV, awarded by the affiliated centre Florida Universitaria
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** Spanish; some courses are OPTIONAL ENGLISH (Games Fundamentals, Game Design, Final Project)
- **Tuition:** 6,815 EUR/year (2026-27); 9 instalments or upfront payment
- **Sample courses / curriculum:**
 - Basic training 66 ECTS
 - Compulsory training 114 ECTS
 - Electives 48 ECTS
 - Final project 12 ECTS
 - Three specialisation rotations: Art, Technology, Technical Art
- **Faculty listing:** The institution does not publish the names of its teaching staff; the faculty consists of both PROFESSIONALS FROM THE GAME INDUSTRY and UPV faculty with experience in game development, research, and teaching.

WARNING: The degree belongs to UPV but the education is provided at the AFFILIATED CENTRE Florida Universitaria - which unit hosts exchange should be clarified with the institution. UPV also has a separate Degree in Data Science (ETSINF) and a Bachelor's in Computer Engineering. The Degree in Interactive Technologies at the Escuela Politécnica Superior in GANDIA covers video games. 40% of class hours are dedicated to developing the SEMESTER PROJECT. The teaching staff consists of both PROFESSIONALS FROM THE GAME INDUSTRY and UPV faculty with experience in game development, research, and teaching.

University of Granada — Granada

Ingenieria Informatica (ETSIIT) — Programacion Grafica de Videojuegos course (Software Engineering specialization) ·

game courses

- **Degree:** Course level (no separate game programme)
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** Spanish
- **Tuition:** State universities charge per credit (annual ~€1,000-2,500). Private centres charge annual ~€8,000-15,000. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Programacion Grafica de Videojuegos: game graphics development methodologies, modeling techniques, game engine programming
 - Master en Desarrollo del Software: Fundamentals of Design and Game Experience
 - Diploma de Iniciacion al Diseno de Videojuegos (short programme)

There is no separate game programme in Granada; games are at the COURSE level. In contrast, UGR offers a separate Bachelor's in Data Science and Artificial Intelligence and a Master's in Data Science and Computer Engineering - strong on the data side.

Tuition (country rule): Fees at state-supported institutions are legally capped; private colleges charge higher fees.

Shenkar College of Engineering, Design and Art — Ramat Gan (Tel Aviv)

Games Pro — Digital Game Development specialization within Software Engineering degree · MDes in Digital Game Design and Development (Azrieli School of Design) · *game programme*

- **Degree:** Bachelor's (Software Engineering, Games Pro branch) + Master's (MDes)
- **Duration:** 4 yr
- **Language:** Hebrew (confirmation from the institution is required for international programs)
- **Tuition:** shenkar.ac.il
- **Sample courses / curriculum:**
 - Game-oriented thinking
 - Leading game engines: Unity and Unreal
 - Game design and specification
 - Game product management
 - Artificial intelligence for games
 - 3D modeling and animation
 - Virtual reality
 - Multiplayer game development
 - Internship opportunities from the FIRST YEAR
 - Joint workshops for designers and programmers

ISRAEL'S ONLY digital game master's program (MDes). A unique connection between ENGINEERING and DESIGN SCHOOLS: the Games Pro software engineering degree is within the MDes at the Azrieli School of Design, and both collaborate. A student on the excellence track can add ONE YEAR to the four-year bachelor's to obtain a master's degree.

[Programme page](#)

Tuition (country rule): Tuition is free for EU/EEA citizens and exchange students; fees are charged for students from outside the EU/EEA.

Blekinge Institute of Technology — Karlskrona

Datavetenskap for spelutveckling (Computer Science for Game Development) + Hogskoleingenjor i teknisk spelgrafik (Technical Game Graphics Engineering) · *game programme*

- **Degree:** Bachelor / Högskoleingenjör
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** Swedish
- **Tuition:** EU/EEA/Switzerland: FREE (semester fee ~350 SEK). Non-EU: annual ~95,000-145,000 SEK. Exchange students do not pay fees. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Game Programming: design of characters, environments, and game elements
 - Technical Game Graphics: from code to visual effects, tools of modern game engines
- **Research labs:**
 - Game Development Research Centre (GDRC) — established December 2025 <https://www.bth.se/nyheter/nyhetsarkiv/2025-12-18-klart-med-ett-nytt-forskningscentrum-for-spelutveckling>
- **Faculty listing:** The institution does not publish the game faculty by name on a separate page. BTH is one of the established institutions offering a PhD in DIGITAL GAME DEVELOPMENT; renowned researchers in the field (e.g., Lennart Nacke, Jussi Holopainen) completed their doctorates here. For current staff, visit bth.se/english

Karlskrona campus closed in summer 2025, programmes moved to KARLSKRONA. There is also a distance education version available.

Futuregames — Stockholm · Malmö · Umeå · Boden (including Skellefteå)

YH (Vocational School) programmes: Game Programmer · Game Designer · Game & UX Designer · Game Artist · Frontend Developer · Agile Project Manager · *game programme*

- **Degree:** Swedish Higher Vocational Education (YH) diploma — equivalent to associate degree level vocational higher education
- **Duration:** 2 yr · **ECTS:** — *(ECTS not used for this national qualification)*
- **Language:** English
- **Tuition:** Tuition-free under the Swedish YH system; students can apply for CSN (Swedish student financial aid)
- **Sample courses / curriculum:**
 - Game Programming (with specializations)
 - Game Design and UX Design
 - Game Art
 - Frontend Development
 - Agile Project Management
 - 16-30 week mandatory SECTOR INTERNSHIP
- **Faculty listing:** The institution does not publish faculty names on programme pages; team information can be found at futuregames.se/team.

Accredited by the Swedish National Agency for Higher Vocational Education (MYH) and organized as a VOCATIONAL HIGHER EDUCATION institution - outside the university sector, Sweden's short-cycle vocational higher-education counterpart. Education is entirely in ENGLISH. Programmes last 2-2.5 years and include a 16-30 week mandatory internship. A practice-oriented model with strong ties to the sector. Note: Game Artist (Malmö) is currently closed for applications.

[Programme page](#)

Malmö University — Malmö

Game Development · *game programme*

- **Degree:** Bachelor's Degree
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** SWEDISH
- **Tuition:** EU/EEA/Switzerland: FREE (semester fee ~350 SEK). Non-EU: annual ~95,000-145,000 SEK. Exchange students do not pay fees. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Year 1: basic programming, 2D game programming, mathematics, databases, game physics, game design
 - Year 2: advanced programming (C++), data structures, artificial intelligence, 3D programming, game studies
 - Year 3: project course (from idea to completed game), electives and thesis
 - Object-oriented game programming, game engine architecture, computer graphics
- **Research labs:**
 - MAU Game Lab — student games and game research <https://games.mau.se/>
 - Game Lab — MAU game research and education unit <https://games.mau.se/>
 - K3 — School of Arts and Communication: sound/radio, photography, cinema, animation, and GAME studios <https://mau.se/en/about-us/faculties-and-departments/faculty-of-culture-and-society/school-of-arts-and-communication/>
- **Faculty:**
 - Jonas Löwgren — Interaction Design Professor; K3 founding partner — collaborative media design, interactive visualization, design theory of digital material <https://mau.se/en/about-us/faculties-and-departments/faculty-of-culture-and-society/school-of-arts-and-communication/>
 - Simon Niedenthal — Lecturer — K3 — game design <https://games.mau.se/>
 - Elisabet Nilsson — Senior Lecturer — Interaction Design <https://mau.se/en/about-us/faculties-and-departments/faculty-of-culture-and-society/school-of-arts-and-communication/>

Part of the Faculty of Technology and Society. IMPORTANT: Bachelor's in SWEDISH - inquire about English course options for exchange. In Malmö, there is also a Master's in Applied Data Science in English. K3 brings together researchers from design, computing, media studies, and cultural sciences; students have access to sound, photography, cinema, animation, and game studios. The Department of Computer Science and Media Technology also works in the game field.

[Programme page](#)

Verification sources: <https://games.mau.se/>

Sodertorn University (Sodertorns hogskola) — Stockholm (Flemingsberg)

Game Programme — two tracks: Game Design and Scripting and Graphics · *game programme*

- **Degree:** Bachelor of Science in Media Technology
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** Swedish (many game courses have English course descriptions)
- **Tuition:** Free for EU/EEA citizens; tuition for non-EU students
- **Sample courses / curriculum:**
 - Game Programming I-II
 - Game Development
 - Game Design Analysis
 - Visual Game Analysis
 - Game Art I-II

- Narrative Design
- Level Design
- 6th semester: thesis/internship/elective (15 hp)

- **Faculty:**

- Petri Lankoski — game studies <https://www.sh.se/english/sodertorn-university/contact/researchers/petri-lankoski>
- Jon Manker — game design research <https://www.sh.se/english/sodertorn-university/contact/researchers/jon-manker>

Approximately 80 students are admitted each year, evenly distributed between the two tracks; students are committed to one track from the application onwards, no transfers allowed. There is also a Game Design Research course at the postgraduate level. In 2025, a games cluster was established in FLEMINGSBERG - the university is at the centre of this.

Stockholm University – DSV – Stockholm

Bachelor Programme in Computer Game Development (Kandidatprogram i datorspelsutveckling, SGAMK) · *game programme*

- **Degree:** Bachelor's degree — in Computer and Systems Sciences
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** SWEDISH (Bachelor); DSV Master's programs in ENGLISH
- **Tuition:** EU/EEA and exchange students: FREE. Non-EU: annual fee
- **Sample courses / curriculum:**
 - 1st year (common): game narrative, analysis and design, modeling, programming, internet media technology
 - Image and sound processing in games, narrative, concept development, prototyping, documentation, game analysis, project management
 - Specialisation: game and level design, game testing, game analysis, programming patterns in game development, game-based learning, 3D rendering, 3D modeling, animation, game engines, HCI
- **Research labs:**
 - Game Research at DSV — Stockholm University game research group <https://gameresearch.blogs.dsv.su.se/>
 - Distributed Immersive Participation research group <https://www.su.se/english/profiles/t/twest>
- **Faculty:**
 - Harko Verhagen — Professor — Computer and Systems Sciences — game research <https://gameresearch.blogs.dsv.su.se/>
 - Thomas Westin — Senior Lecturer — immersive environments and XR, game prototyping, playtesting, INCLUSIVE DESIGN, human-computer interaction <https://www.su.se/english/profiles/t/twest>

TWO TRACKS: Construction Track (fiction/technical) and Design Track. Running for 20 years. In 2025, FOUR NEW game design courses will be launched at the Master's level (in English). DSV also offers Master's programs in Data Science, Statistics and Decision Analysis, and Design for Creative and Immersive Technology. DSV has a separate fact sheet for exchange students.

University of Gothenburg — Gothenburg

Game Design & Technology (MSc) · *game courses*

- **Degree:** Master of Science in Interaction Design
- **Duration:** 2 yr · **ECTS:** 120 ECTS

- **Language:** English
- **Tuition:** EU/EEA, Swedish residents and exchange students: FREE. Non-EU: total 290,000 SEK (first installment 72,500 SEK)
- **Sample courses / curriculum:**
 - Advanced Requirements Engineering
 - Introduction to Game Research
 - Computer Graphics
 - Gameplay Design
 - Game Engine Architecture
 - Current Trends in Gaming
 - Game Development Project
 - Master's Thesis
 - Electives: interaction design, computer architecture, interactive narrative, game internships
- **Research labs:**
 - Department of Computer Science and Engineering (joint with Chalmers, Campus Lindholmen) <https://www.gu.se/en/study-gothenburg/game-design-technology-masters-programme-n2gdt>

Based on four pillars: analysis, design, implementation, evaluation. Open game courses for exchange students: DIT414 Design and Construction of Digital Games, DIT098 Gameplay Design. Additionally, in Gothenburg, there are Bachelor's degrees in Software Engineering and Management and Master's degrees in Applied Data Science.

[Programme page](#)

University of Skövde — Skövde

Game development bachelor's programmes (8 separate programmes: Game Design, Game Programming, Game Graphics, Game Writing, Game Sound/Music, Game Animation, etc.) · *game programme*

- **Degree:** Kandidatexamen (Bachelor)
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** Swedish (bachelor) - English courses available for exchange students
- **Tuition:** EU/EEA: free. Non-EU: 95,000-135,000 SEK/year (2025/26), from 2026/27 onwards 110,000 SEK/year
- **Sample courses / curriculum:**
 - Game design
 - Programming
 - Graphics and animation
 - Sound design
 - Game writing
- **Research labs:**
 - Sweden Game Arena ecosystem (university + industry incubator) <https://swedengamearena.com/en/us/academy/>
 - GAME Research Group — game research group <https://www.his.se/en/research/informatics/game-research-group/>
- **Faculty:**
 - Henrik Engström — Professor (Computer Science) — game development research <https://www.his.se/en/research/informatics/game-research-group/>
 - Lissa Holloway-Attaway — Lecturer — media arts, aesthetics and narration <https://www.his.se/en/about-us/staff/lissa.hollowayattaway/>

~500 game students, ~50 game faculty, 12 game programmes (bachelor + master). One of the largest game education clusters in Europe. Research areas: Media Arts/Aesthetics and Narration, Computer Science, Music and Cognitive Science. NOTE: In December 2025, Swedish universities established a joint GAME DEVELOPMENT RESEARCH CENTRE and Skövde is part of this structure.

Uppsala University – Department of Game Design (Campus Gotland) — Visby (Campus Gotland)

Game Design and Programming (Campus Gotland) · *game programme*

- **Degree:** Kandidatexamen / Bachelor
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** English (entirely)
- **Tuition:** EU/EEA/Switzerland: free. Non-EU: total 378,000 SEK (first instalment 63,000 SEK)
- **Sample courses / curriculum:**
 - Year 1: fundamentals of game design, basic programming, teamwork, experimental game projects
 - Year 2: advanced game systems, large productions, commercial game engines (logic programming focused)
 - Year 3: internship or study abroad + final project
 - C++ programming heavy
- **Research labs:**
 - GAME — Uppsala University Game Design Department research site <https://game.speldesign.uu.se/>
- **Faculty:**
 - Olle Jansson — Department Head <https://www.uu.se/en/departement/game-design/contact>
 - Patrick Prax — Docent (Associate Professor) — game design <https://www.uu.se/en/departement/game-design>
 - Camilla von Paykull — Lecturer <https://www.uu.se/en/contact-and-organisation/staff?query=N17-680>
 - Johan Eriksson — Lecturer <https://www.uu.se/en/contact-and-organisation/staff?query=N12-2441>

- Pernilla Persson — Lecturer <https://www.uu.se/en/contact-and-organisation/staff?query=N12-2446>
- Jonatan Österberg — Lecturer

There are three sibling programmes in the same department: Game Design and Graphics, Game Design and Level Design, Game Design and Project Management. Advisor: studievagledning-cg@uu.se The department has APPROXIMATELY 30 STAFF and around 400 students each year. Contact: gamedesign@speldesign.uu.se

[Programme page](#)

Tuition (country rule): Semester fees at state-supported institutions are low by European standards; fees for international students may be increased at some institutions.

Lucerne University of Applied Sciences and Arts (HSLU) — Rotkreuz and Emmenbrucke (Lucerne)

Bachelor in Digital Ideation — specialisation options: GAME DESIGN, Web & Mobile, UX Design · *game programme*

- **Degree:** TWO DIFFERENT DEGREES BASED ON FOCUS: BSc in Information Technology (IT focus) or BA in Visual Communication (design focus)
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** English (German optional)
- **Tuition:** to be confirmed from hslu.ch
- **Sample courses / curriculum:**
 - Game Design (Game Design specialisation track)
 - Web and mobile development
 - User Experience (UX) design
 - Programming
 - Visual Communication
 - Joint project work of computer scientists and designers
 - Interdisciplinary (transdisciplinary) modules — COMMON for BOTH FOCUSES: Game Design & Engineering, Studio User Experience, Studio Web & Mobile
 - IT modules (IT focus): programming, graphics, data structures
 - Design modules (design focus): web design, visual communication, user interfaces
 - Transfer modules: Digital Technology Fundamentals, project management, Science and Methods
- **Faculty listing:** The institution does not publish faculty member names in the module list. Contact: Lucerne School of Design, Film and Art, +41 41 248 64 64.

A VERY ORIGINAL MODEL: Students study in two separate faculties - Faculty of Information Technology (Rotkreuz) and Faculty of Design, Film and Art (Emmenbrucke). Initially, either IT or design focus is chosen, and the degree is awarded accordingly; however, the curriculum intertwines both worlds. NOTE: The 'Game Design & Engineering' module is in the TRANSDISCIPLINARY category - meaning both IT and design-focused students take this course TOGETHER. The institution does not publish faculty member names; contact +41 41 248 64 64.

Zurich University of the Arts (ZHdK) — Zurich

BA Design — Specialisation in Game Design · *game programme*

- **Degree:** Bachelor of Arts
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** German (some courses in English)
- **Tuition:** Swiss public higher education — low fee per semester (~720 CHF/semester); additional fees may apply for international students
- **Sample courses / curriculum:**
 - Culture and design of interactive games
 - Creative use of digital media
 - Conceptual, design, and technology skills for video game development and production
- **Research labs:**

- Game Design ZHdK — research projects (e.g. Swiss Game Design History) <https://gamedesign.zhdk.ch/>

- GameLab ZHdK <https://gamedesign.zhdk.ch/personen/team/>

- **Faculty:**

- Prof. Ulrich Götz — Head of Game Design <https://www.zhdk.ch/person/prof-ulrich-goetz-110120>

- René Bauer — Lecturer and researcher; head of master's education in game design <https://gamedesign.zhdk.ch/personen/team/>

- Beat Suter — Lecturer; GameLab manager <https://gamedesign.zhdk.ch/personen/team/>

- Goran Saric — Head of BA Major Game Design, lecturer <https://gamedesign.zhdk.ch/personen/team/>

Switzerland's most renowned game design programme. Within an art university - design/culture focused. Additionally, there are UNIL GameLab (Lausanne), HEAD Geneva, ETH Game Technology Center, and SAE campuses in Switzerland.

Politecnico di Milano — Milan

Computer Science and Engineering (MSc) including Videogame Design and Programming COURSE · *game courses*

- **Degree:** Course level (no separate game program)
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** English (PoliMi has 45 English master's programs)
- **Tuition:** In public universities, annual fees based on income ~500-3,000 EUR. In private schools (IED, etc.) annual fees ~9,000-15,000 EUR. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**

- Videogame Design and Programming (Prof. Pier Luca Lanzi)

- **Research labs:**

- PoliMi Game Collective (student/research community)

- Design School: Digital and Interaction Design programs

- GameLab — DEIB research laboratory; researching the use of games in EDUCATION, LEARNING, and REHABILITATION <https://www.deib.polimi.it/eng/deib-labs/details/94>

- POLIMI Game Collective — a game production and research community consisting of faculty members, students, and alumni <https://polimi-game-collective.itch.io/>

- **Faculty:**

- Pierluca Lanzi — Professor, GameLab Director — data-driven game design, machine learning, procedural content generation, artificial intelligence for games <https://www.deib.polimi.it/eng/deib-labs/details/94>

IMPORTANT NUANCE: PoliMi does not have a separate game DEPARTMENT/PROGRAM - Videogame Design and Programming is a COURSE within the Computer Science and Engineering master's. It should not be referred to as a department in emails. Joint New Game Designer event with Milano Statale. PoliMi also offers EIT Digital Data Science and Business Analytics and Data Science master's programs. At the center of the community is the VIDEOGAME DESIGN AND PROGRAMMING course in the Engineering of Computing Systems master's. GameLab is also working on improving educational experiences with VR/AR.

Università degli Studi di Milano — Milan

Informatica (Laurea Magistrale) — VIDEO GAME track: Game Design or Game Programming dual pathway · *game programme*

- **Degree:** Laurea Magistrale (MSc)
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** Italian (some courses in English)
- **Tuition:** In public universities, annual ~500-3,000 EUR based on income. In private schools (IED etc.) annual ~9,000-15,000 EUR. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Online Game Design (active since 2011)
 - Gamification and Serious Games
 - Game Programming track courses
 - 3D Video Games
 - Online Game Design
 - Gamification and Serious Games
- **Faculty:**
 - Laura Ripamonti — Faculty member; coordinator of the 'Videogame' track <https://www.unimi.it/en/education/degree-programme-courses/2026/online-game-design>
 - Dario Maggiorini — Faculty member; working with Ripamonti in track coordination <https://www.unimi.it/en/education/degree-programme-courses/2026/3d-video-games-0>

IMPORTANT: The Informatica master's has a dual VIDEO GAME track (Game Design / Game Programming). It is jointly conducted with POLITECNICO DI MILANO. UBISOFT has contributed to the programme design and provides students with internships/applied training - strong industry connections. A joint New Game Designer event is organized with PoliMi. Additionally, there is a fully English Data Science for Economics master's at Statale. Within the Informatics MASTER'S, there is a dedicated path for video games where students choose between GAME DESIGN and GAME PROGRAMMING. The course titles also include 'Gamification and Serious Games' - the non-entertainment use of games is included in the curriculum.

Tuition (country rule): Instead of tuition fees, an annual registration fee is charged at public universities; private institutions charge fees.

Reykjavik Academy of Digital Entertainment (RADE) — Taekniskolinn — Reykjavik

Digital Entertainment Diploma Programme — Game Design, 3D and Post-Production · *game programme*

- **Degree:** TWO-YEAR DIPLOMA (university level) — option to TOP-UP to Bachelor's by completing one year abroad
- **Duration:** 2 yr · **ECTS:** 120 ECTS *(from Bologna norm)*
- **Language:** English
- **Tuition:** Taekniskolinn (Iceland Technical College) — to be confirmed from tskoli.is
- **Sample courses / curriculum:**
 - 1-2. semester: fundamentals of software and theory
 - 3. semester: specialization area selection (game design / 3D / post-production)
 - 4. semester: INDEPENDENT FINAL PROJECT — supported by both a faculty member and a SECTOR PROFESSIONAL
 - Special Effects and Animation
- **Faculty listing:** The institution does not publish the names of faculty members; the final project is conducted under the mentorship of both a faculty member and a SECTOR PROFESSIONAL.

A two-year, university-level, game-focused DIPLOMA program - short-cycle / associate level. Education is in English, and the final project is conducted with sector mentorship. The center of game education in Iceland (CCP Games ecosystem in the same city).

British Columbia Institute of Technology (BCIT) — Burnaby, British Columbia

Applied Computer Science — Games Development Option (BScACS): two-year DEGREE COMPLETION program; prerequisite two-year CST diploma or 60 credits · *game programme*

- **Degree:** Bachelor of Science (degree completion)
- **Duration:** 2 yr
- **Language:** English
- **Tuition:** bcit.ca tuition calculator (book/materials level ~1,100 CAD)
- **Sample courses / curriculum:**

- Introduction to Computer Games Development
- Games Design Fundamentals
- Advanced Games Programming Techniques
- Art in Game Development
- Advanced Games Architecture
- Artificial Intelligence
- Storytelling Techniques in Games
- Physics for Games Development
- Linear Algebra and Applications for Computing
- Major Projects (capstone)

Notable model: This is a DEGREE COMPLETION program - it takes students with a two-year diploma (CST) or 60 credits and transitions them to a bachelor's degree in two years. A degree-completion route for holders of a two-year diploma or 60 credits. C++ knowledge and

pre-assessment are required for entry. Single intake per year (September), Burnaby campus, optional co-op between levels 6-7. NOTE: Previously offered as Bachelor of Technology before September 2023, now BScACS.

Centennial College — Toronto, Ontario (Progress campus)

Game — Development (Ontario College Advanced Diploma, 3 years) · Game — Art (16 months intensive) · *game programme*

- **Degree:** Ontario College Advanced Diploma
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** 2025-2026: Canadian student 7,807 CAD/year (6,472 tuition + 1,335 additional) · international student 21,278 CAD/year (19,445 + 1,833)
- **Sample courses / curriculum:**
 - Game theory and design principles
 - 2D and 3D modelling design processes
 - Fundamentals of computer programming
 - Game engines
 - Mobile game development (special emphasis)
 - Professional practice
 - Production of FULLY PLAYABLE games individually and in teams
 - Game Art stream: traditional 3D game assets, game environments, and characters
- **Faculty:**
 - Jason Colthrust — Faculty member (15+ years) — 3D generalist; Unreal Authorized Instructor <https://www.centennialcollege.ca/about-centennial/schools/school-of-communications-media-arts-and-design/faculty/game-art-faculty/jason-colthrust/>

Tuition fees are clearly stated - international student fees are approximately 3 times that of Canadian students. Students are required to bring their own laptops with specific technical specifications (Windows 11, i5, 16GB RAM, RTX 4050); Unity, Maya, and Photoshop are used. The institution has FOUR separate streams in gaming: Game Development (3 years), Game Art, Game Programming, and Game Programming (Fast Track).

[Programme page](#)

Centre for Digital Media (CDM) — Vancouver, British Columbia

Master of Digital Media (MDM) — project-based master's; also includes Building Blocks of Digital Product Development and micro-credential programs · *game programme*

- **Degree:** Master of Digital Media — JOINT DEGREE awarded by FOUR INSTITUTIONS
- **Duration:** 1.33 yr
- **Language:** English
- **Tuition:** thecdm.ca
- **Sample courses / curriculum:**
 - Project-based digital media production
 - Building blocks of digital product development (short program)

A UNIQUE COLLABORATIVE MODEL: The degree is jointly awarded by FOUR INSTITUTIONS - University of British Columbia (UBC), Simon Fraser University (SFU), Emily Carr University of Art + Design, and BCIT. Thus, one art university, one technical institute, and two research universities jointly manage a single degree. The program lasts 16 MONTHS, with 12 MONTHS of WORK INTEGRATED LEARNING - meaning a quarter of the time is spent in the industry during a master's program.

Concordia University — TAG (Centre for Technoculture, Art and Games) — Montreal, Quebec

Minor in Game Design (24 credits) — Faculty of Fine Arts, Department of Design and Computation Arts · *game courses*

- **Degree:** Minor (to be taken alongside honours/specialization/major)
- **Duration:** — *(no single value applies)*
- **Language:** English
- **Tuition:** concordia.ca

- **Sample courses / curriculum:**

- Game Design (minor curriculum, Department of Design and Computation Arts)

- **Research labs:**

- TAG — Centre for Technoculture, Art and Games: a leading centre for game research-creation in Canada; bringing together designers, artists, engineers, students, and academics. <https://www.concordia.ca/academics/undergraduate/game-design.html>

There is no separate game degree - game design is offered as a MINOR, available from the second year. The main focus is the TAG research centre: a central structure for game research and production in Canada. Some faculty members are ACTIVE INDEPENDENT GAME DEVELOPERS. Montreal being a hub for games shapes the context of the program.

Ecole NAD-UQAC (Ecole des arts numeriques, de l'animation et du design) — Montreal, Quebec

Baccalaureate in 3D Creation for Video Games (3D creation for video games, Technical Arts) · Baccalaureate in 3D Animation and Digital Design — two branches: video games / cinema-TV visual effects · Certificate in 3D Animation and Digital Design (30 credits) · DESS in Narrative Video Game Design · Master's in Art (Digital Design) · *game programme*

- **Degree:** Bachelor's (90 credits, 6 semesters) + certificate + DESS + master's degree
- **Duration:** 3 yr
- **Language:** French (open to international students)
- **Tuition:** UQAC — nad.ca / uqac.ca

- **Sample courses / curriculum:**

- 3D creation for video games

- 3D animation

- Digital design

- Visual effects for cinema/TV (separate branch)

- Narrative-based game design (DESS level)

MONTREAL IS ONE OF THE LARGEST GAME PRODUCTION CENTRES IN THE WORLD and NAD is the educational arm of this ecosystem. Established in 1992 by Cegep de Jonquiere, became UQAC campus in 2008; since 2019 located in Quartier des spectacles/Ilot Balmoral. The quota is 64 per branch, total 128 - small and selective. Partnerships with UBISOFT MONTREAL, RODEO FX, and HYBRIDE TECHNOLOGIES; joint summer camps with Ubisoft. The majority of graduates enter the gaming industry directly and work primarily in artistic roles (3D artist, visual effects artist). There is a complete ladder from certificate to master's degree.

Sheridan College — Oakville, Ontario (Trafalgar campus)

Honours Bachelor of Game Design · Game Level Design (postgraduate certificate) · Game Development — Advanced Programming (post-diploma certificate) · Master of Animation, Games and Immersive Experiences · *game programme*

- **Degree:** Honours Baccalaureate + postgraduate certificates + master's degree
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** 2026-2027: Canadian student 10,029 CAD/year · international student 22,576 CAD/year (co-op students pay additional fees)
- **Sample courses / curriculum:**
 - Game design and mechanics
 - Level design
 - Programming and technology
 - Game narrative and audio
 - 2D and 3D art and animation
 - Professional development and project management
 - MANDATORY Co-op (work placement in the industry)
 - Final semesters project-based: team game development
 - Game Design 1: Foundations
 - Programming for Game Designers
 - Level Design
 - Studio Practice (capstone project)
 - Game mechanics
 - Project management
- **Faculty:**
 - Adam M. Clare — Professor; Game Design program coordinator <https://www.sheridancollege.ca/about/faculties/animation-arts-design/profiles/adam-m-clare>
 - Jeffrey P. Pidsadny — Professor; Game Level Design program coordinator <https://www.sheridancollege.ca/about/faculties/animation-arts-design/profiles/jeffrey-p-pidsadny>
 - Douglas Gregory — Professor — Honours Bachelor of Game Design <https://www.sheridancollege.ca/about/faculties/animation-arts-design/profiles>

CO-OP (paid work placement in the industry) is part of the curriculum - a distinctive feature of the North American model. Sheridan is world-renowned in the field of animation. The Master of Animation, Games and Immersive Experiences is the first master's program in Canada to establish a bridge between animation, games, and immersive media; there is a clear career ladder from undergraduate to postgraduate studies.

Letonya

Tuition (country rule): State-funded quotas are free; other places and private institutions charge fees.

EKA University of Applied Sciences — Riga

Computer Games Design and Graphics · *game programme*

- **Degree:** Professional Bachelor — Computer Game Design and Graphics
- **Duration:** 4 yr · **ECTS:** 240 ECTS *(from Bologna norm)*
- **Language:** Latvian/English (to be confirmed)
- **Tuition:** Paid (annual ~2,000-4,500 EUR). Exchange students do not pay fees. | THIS INSTITUTION IS PRIVATE — confirmation should be obtained from its fee page. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Game Design
 - Computer Graphics
- **Faculty listing:** The institution does not publish the names of its teaching staff; 67% of the academic staff hold doctoral degrees and the programme has industry partners from the game sector.

EKA also offers a BSc in Information Technologies (Programming): software development, databases, WEB development, software engineering. EKA is a private higher education institution established in Riga in 1998. The 'Computer Game Design and Graphics' programme has industry partners from the GAME SECTOR and includes VR-BASED applications in the course. 67% of the academic staff hold doctoral degrees.

[Programme page](#)

RISEBA University of Applied Sciences — Riga

Audiovisual Media Arts (BA) / Media Arts and Creative Technologies — game design at MODULE level · *game courses*

- **Degree:** Bachelor
- **Duration:** 4 yr · **ECTS:** 240 ECTS *(from Bologna norm)*
- **Language:** Latvian, ENGLISH and Russian (three language programme option)
- **Tuition:** Tuition fee (annual ~2,000-4,500 EUR). Exchange students do not pay tuition. | THIS INSTITUTION IS PRIVATE — confirmation should be obtained from its tuition page. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Game design in the search for new art forms
 - Augmented/virtual reality and immersive environments

WARNING: There is NO programme called Computer Game Design and Graphics at RISEBA (it belongs to EKA). Game design is only a module within Audiovisual Media Arts. RISEBA consists of three schools: Business, Media and Communication, Architecture and Design. The availability of programmes in THREE LANGUAGES (Latvian/English/Russian) is an advantage for exchange. NOTE: RISEBA's audiovisual programmes have multiple duration options (full-time daytime 4 years; some lines 3-3.5 years). The duration of the desired line should be confirmed by the institution.

Tuition (country rule): State-funded quotas are free; remaining places and students from outside the EU pay fees.

Kaunas University of Technology (KTU) — Kaunas

Multimedia Technologies (BSc) · *game programme*

- **Degree:** Bachelor
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** LITHUANIAN (no English option)
- **Tuition:** 4,201 EUR/year (70.02 EUR per credit)
- **Sample courses / curriculum:**
 - Object-Oriented Programming
 - Computer Graphics
 - Databases, Operating Systems
 - 3D Modelling
 - User Experience Design
 - Digital Audio/Video Systems
 - ARTIFICIAL INTELLIGENCE FOR GAMES
 - Virtual Reality Technologies
 - Computer Graphics, Animation, and Games
 - 3D Graphics and Image Synthesis
 - Virtual and Augmented Reality
 - 3D Games and AR GAMES
 - Artificial Intelligence in Games
 - Real-Time Interactive Systems
 - Game Engineering
- **Research labs:**
 - Department of Multimedia Engineering, Faculty of Informatics — computer graphics, animation, and games (3D games, network games, artificial intelligence in games, game engineering) <https://fi.ktu.edu/departament-of-multimedia-engineering/>

Mykolas Romeris University (MRU) — Vilnius (last two years in South Korea)

Game Development and Digital Animation — JOINT degree programme with DONGSEO UNIVERSITY (South Korea);
sister programme **Digital Media Design** · *game programme*

- **Degree:** Joint degree
- **Duration:** 4 yr · **ECTS:** 240 ECTS *(from Bologna norm)*
- **Language:** English
- **Tuition:** Annual fee 3,176-4,108 EUR; scholarship opportunities available
- **Sample courses / curriculum:**
 - Game Development
 - Digital Animation
 - Digital Media Development (alternative specialisation that can be switched in the first two years)
- **Faculty:**
 - Prof. Tadas Limba — Professor; Head of the 'Game Development' joint programmes https://www.mruni.eu/en/study_program/game-development-and-digital-animation/

MOBILITY EMBEDDED IN CURRICULUM: First two years in Vilnius, last two years in South Korea (Dongseo University). Students can switch between Game Development and Digital Media Development in the first two years; final specialisation is confirmed before going to Korea. One of the rare examples of a European-Asian joint degree model in the gaming field. Fees are low by European standards.

Verification sources: <https://smk.lt/en/study-programmes/computer-games-and-animation/>

Vilnius Gediminas Technical University (VILNIUS TECH) — Vilnius

Multimedia Design · *game courses*

- **Degree:** Bachelor
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English

- **Tuition:** Paid (annual ~2,000-5,000 EUR); there are state scholarship quotas. [country rule — not confirmed by the institution]
- **Sample courses / curriculum:**
 - Game Development
 - UX/UI Design
 - AR/VR Experiences
 - Computer Architecture and Operating Systems
 - Programming and Independent Learning of New Languages
 - Development of Interactive Applications for All Platforms
 - Digital Processing of Text, Sound, Image, and Video
 - Analysis of Multimedia Product Demand

Vilnius Tech also offers an English Bachelor's in Information Technologies, Bachelor's in Data Analysis Technologies, and Master's in English Data Science and Statistics and Information Systems Software Engineering. NOTEWORTHY DOUBLE DEGREE PATH: The student studies the first two years in Vilnius, the third year in London at Goldsmiths' Digital Arts Computing programme, and returns to Vilnius for the fourth year. Goldsmiths is also listed separately in the catalogue - a ready-made mobility bridge established between the two institutions.

[Programme page](#)

Budapest Metropolitan University (METU) — Budapest

Media Design BA (including game design) · Animation BA (with a focus on game design) · *game courses*

- **Degree:** BA
- **Duration:** 3 yr · **ECTS:** 180 ECTS *(from Bologna norm)*
- **Language:** English (international programmes)
- **Tuition:** Private university — metropolitan.hu
- **Sample courses / curriculum:**

- Screen graphics
- Motion picture production
- Sound design
- 3D design
- GAME DESIGN
- UX design
- Visual effects (VFX)
- Web design, interaction design, interactive applications
- Installation planning

There is NO separate game department; game design is a field within the Media Design BA. Animation BA graduates also pursue careers in advertising, electronic media, cinema, digital post-production, and GAME DESIGN. One of the largest private universities in Hungary offering education in English.

Tuition (country rule): Tuition is free for EU/EEA/Swiss citizens and exchange students (only a symbolic semester fee); students from outside the EU/EEA have been charged fees since 2023.

Inland Norway University of Applied Sciences (INN) — The Game School — Hamar

Bachelor in Game Technology · *game programme*

- **Degree:** Bachelor (180 ECTS)
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** English (Norwegian not required)
- **Tuition:** EU/EEA and exchange students: FREE (semester fee ~1,000 NOK). Non-European: 68,500 NOK/year
- **Sample courses / curriculum:**

- Game Programming branch: engine development, game mechanics, database, network communication
- Computer Graphics branch: 3D programming, shaders, visualisation, mathematical systems

- **Research labs:**

- The Game School — Faculty of Film, TV and Games (Hamar) <https://gameschool.inn.no/>
- Game School research and development unit <https://gameschool.inn.no/research-development/>

- **Faculty:**

- Esperanza Johnson — Assistant Professor — Program manager
- Lene Kristin Minge — Internationalisation Advisor
- Harald Ulrik Sverdrup — Professor — System Dynamics (Game School) <https://gameschool.inn.no/>

ALL COURSES ARE OPEN TO EXCHANGE STUDENTS and can be combined according to the student's preference - There are also Game Art and Animation and Game Technology and Simulation programs. The Game School is rapidly growing: over 350 students and about 30 full-time staff (plus part-time and guest lecturers). An annual Game School Expo event is organised.

[Programme page](#)

Inland Norway University of Applied Sciences (INN) — The Game School — Hamar

Bachelor in Game Technology and Simulation · Bachelor in Game Art and Animation (for Game Technology program see above registration) · *game programme*

- **Degree:** Bachelor (three separate programs)
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** English
- **Tuition:** Paid for non-EU/EEA students — to be confirmed by inn.no

- **Sample courses / curriculum:**

- Advanced Game Engine Programming
- Computer Science and Programming
- Game Development and Game Design
- Simulation and Visual Systems
- Game Art and Animation (separate program)
- Joint project work between technical and art students

- **Research labs:**

- Motion Capture Studio (PARK Innovation and Entrepreneurship Centre, Hamar) — touted as the best in the Nordic countries <https://gameschool.inn.no/>
- Game School Research and Development Unit <https://gameschool.inn.no/research-development/>

- **Faculty:**

Known as the HAMAR NORWEGIAN GAME CAPITAL; hosts numerous game studios. The Game School is an INTERDISCIPLINARY structure combining game technology, simulation, VR/AR, animation, and digital art; under the Faculty of Film, TV and Games, at Campus Hamar. The Game School is rapidly growing: over 350 students and about 30 full-time employees (along with part-time and guest faculty). An annual Game School Expo event is organized.

Tuition (country rule): Annual fees (propina) at public institutions are legally capped; higher fees apply for international students from outside the EU.

IADE – Universidade Europeia – Lisboa

Global Bachelor in Games Development · *game programme*

- **Degree:** Licenciatura / Bachelor
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** ENTIRELY IN ENGLISH
- **Tuition:** Private university — tuition not published on the page; should be confirmed from IADE (typical in Portuguese private universities: 4,000-8,000 EUR/year)
- **Sample courses / curriculum:**
 - Fundamentals of Programming (C, C#, C++)
 - Game Design and Production
 - 2D/3D Game Programming
 - Artificial Intelligence
 - Computer Graphics
 - Online Game Programming
 - 6 semesters of project-based learning
- **Faculty:**
 - Edirlei Lima — Games Development program coordinator <https://www.iade.europeia.pt/en/undergraduate-programs/bachelor-games-development/>
 - Nélío Codices — Faculty member — co-founder and director of BATTLESHEEP (a Portuguese game studio established in 2008) <https://www.iade.europeia.pt/en/faculty/nelio-codices/>

IMPORTANT DETAIL: The program includes a MANDATORY SEMESTER ABROAD (with partners like Abertay University-Scotland, Amsterdam UAS, etc.) - so an exchange culture is already established. Additionally, a member of the PlayStation First Academic Program (partnership with Sony, access to professional equipment). Oriente Green Campus, Lisbon. IADE also runs a postgraduate Game Design program and Mestrado em Design e Produção de Jogos. In addition to the bachelor's degree, IADE also conducts a postgraduate (master's) program in GAME DESIGN. The institution is a member of Cumulus (an international network of art-design-media universities).

Universidade Lusófona — Lisboa/Porto

Videogames (Licenciatura) · *game programme*

- **Degree:** Licenciatura (Bachelor)
- **Duration:** 3 yr · **ECTS:** 180 ECTS
- **Language:** Portuguese
- **Tuition:** Annual ~700-1,100 EUR at public institutions (EU). Annual ~4,000-8,000 EUR at private universities. | THIS INSTITUTION IS PRIVATE — confirmation should be obtained from its fee page. [country rule — not confirmed by institution]
- **Sample courses / curriculum:**
 - Game Programming
 - 3D Modelling and Animation
 - Game Design
 - Sound and Music
- **Research labs:**
 - MOCAP studios, HD studios, 3D animation and interactive application laboratories
 - COPELABS / HEI-Lab research units (games and interaction)
- **Faculty:**
 - Filipe Costa Luz — Director of the Videojogos degree; also coordinator of the Videojogos e Aplicações Multimédia degree in Porto <https://www.ulusofona.pt/docentes/filipe-soares-branco-da-costa-luz-2052>
 - Daniela Resende — Pedagogical Coordinator <https://www.ulusofona.pt/lisboa/licenciaturas/videojogos/docentes>

In Lusophone countries, there is also a Master's in Game Design and Playful Media and the REPLAY Erasmus Mundus Master in Videogames. A Master's in Data Science is also available. THERE ARE game degrees at TWO CAMPUSES: in Lisbon Videojogos, in Porto Videojogos e Aplicações Multimédia; each campus's faculty page is published separately.

ECHO School of Technology, Digital Arts and Video Games — Bucharest

UC UNDERGRADUATE PROGRAM: Game Design and Development · Game Engineering · Computer Arts and Animation — all in partnership with ABERTAY UNIVERSITY (Scotland) · *game programme*

- **Degree:** BA/BSc — UNITED KINGDOM ACCREDITED diploma
- **Duration:** 3 yr · **ECTS:** 180 ECTS *(from Bologna norm)*
- **Language:** English
- **Tuition:** Early registration 1,500-2,000 EUR (Super Early Bird March 31, Early Bird July 31); for standard fee contact the institution
- **Sample courses / curriculum:**
 - Game Design and Development: narrative design, level design, game economy systems, production management
 - Game Engineering: data structures and algorithms, 3D graphics, artificial intelligence, performance optimization
 - Computer Arts and Animation: 2D/3D animation, character design, visual development, asset production
- **Faculty:**
 - Mihai Chirila — Senior Game Designer @Gameloft — 18+ years; The Dark Knight Rises, Modern Combat 5, N.O.V.A. Legacy <https://echo-school.ro/lecturers/>
 - Gabriel Stancu — Studio Head @Amber — Cinderella: Free Fall, Link Twin, Command & Conquer 3 <https://echo-school.ro/lecturers/>
 - Ionut Solomon — Game Director @Ovilex Soft — 17 years; Ghost Recon, H.A.W.X 2 — managed console/PC/mobile teams <https://echo-school.ro/lecturers/>
 - Vlad Anghelhar — International Engineering Guild Leader @Amber — game engineering <https://echo-school.ro/lecturers/>
 - Stefan Zamfir — Senior Systems Designer @Gameloft — Asphalt 8, N.O.V.A. series <https://echo-school.ro/lecturers/>
 - Lilian Ursu — Lead Programmer @Gameloft — online, multiplayer, and live service games <https://echo-school.ro/lecturers/>
 - Marius Gherman — Technical Director @Amber — mathematics + game development, virtual world production <https://echo-school.ro/lecturers/>
 - George Munteanu — Lead Concept Artist @Gameloft — H.A.W.X 2, Modern Combat 5, Sniper Fury <https://echo-school.ro/lecturers/>
 - Vlad Ionescu — Technical UI Designer and Technical Lead @Globant <https://echo-school.ro/lecturers/>
 - Marian Poiana — Lecturer @ECHO School — 20-year animation career; Ubisoft game art, 3D character animation; digital animation doctorate <https://echo-school.ro/lecturers/>
 - Andrei Nae — Lecturer @Bucharest University — game studies, cultural studies, and narratology; author of a monograph on survival horror games <https://echo-school.ro/lecturers/>

THE FIRST certified undergraduate programmes dedicated to game development in ROMANIA. The curriculum was developed by ABERTAY UNIVERSITY and the diploma is UK accredited - Abertay is the world's FIRST university to offer a game degree. Established in partnership with Bucharest International School of Management and Romania's largest independent game studio AMBER STUDIO. Fully in ENGLISH. NOTE: Abertay is outside of Erasmus+ (UK), ECHO is in Romania; whether it holds an ECHE should be verified. THE STAFF IS ALMOST COMPLETELY ACTIVE INDUSTRY PROFESSIONALS: Instructors from Gameloft, Amber, Ovilex Soft, and Globant teach; alongside an academic from the field of game studies. Students learn directly from working designers, programmers, and art directors.

UNATC I.L. Caragiale — Ulusal Tiyatro ve Sinema Universitesi — Bucharest

Art of Game Design (Arta designului de jocuri) — Master's degree in ENGLISH; within the CINETic research centre · *game programme*

- **Degree:** Master's degree
- **Duration:** 3 yr · **ECTS:** 180 ECTS *(from Bologna norm)*

- **Language:** English
- **Tuition:** State university — unatc.ro
- **Sample courses / curriculum:**
 - Digital Storytelling
 - Character Design
 - Environment Design
 - Fundamentals of Coding for Games
 - Game Design
 - Exams are mostly APPLIED PROJECT: taking a game from documentation to PROTOTYPE (board game or video game)
- **Research labs:**
 - CINETic — International Centre for Research and Education in Innovative Creative Technologies (within UNATC) <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
- **Faculty:**
 - Conf. univ. dr. Matei Branea — Department Director — programme coordinator — matei.branea@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Prof. univ. dr. Radu Igazsag — Professor — radu.igazsag@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>

 - Conf. univ. dr. Mirela Vlad — Docent — mirela.vlad@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Lect. univ. dr. Grigore Burloiu — Teaching Assistant — grigore.burloiu@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Lect. univ. dr. Ioana Mischie — Teaching Assistant — ioana.mischie@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Lect. univ. dr. Diana Dragomir — Teaching Assistant — diana.vasile@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Lect. univ. dr. Valeriu Caliman — Teaching Assistant — valeriu.caliman@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Lect. univ. dr. Constantina Mihaila — Teaching Assistant — constantina.mihaila@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Lect. univ. dr. Stefan Damian — Teaching Assistant — stefan.damian@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>
 - Asist. univ. dr. Ciprian Facaeru — Research Assistant — ciprian.facaeru@unatc.ro <https://unatc.ro/devunatc/departament/arta-designului-de-jocuri/>

A VERY INTERESTING POSITION: The FIRST master's degree in Romania providing an academic framework for game design, established within a THEATRE-CINEMA UNIVERSITY. It approaches game production from a very different perspective than engineering schools, as it combines design, art, cinema, and theatre - narrative and performance-oriented. Selected as the best educational initiative at the Romanian Game Awards 2023. More than 50% of graduates enter leading game studios, while the rest work in the independent (indie) sector. Organised Romania's FIRST academic game jam. NOTE: The department openly publishes the EMAIL ADDRESSES of all faculty members - one of the most accessible institutions in the catalogue for direct communication.

HSE University — Faculty of Computer Science / Art and Design School (joint) — Moscow

Game and Digital Product Development · *game programme*

- **Degree:** Bachelor (Software Engineering + Design joint)
- **Duration:** 4 yr
- **Language:** Russian
- **Tuition:** State research university — digital.hse.ru / hse.ru must be verified
- **Sample courses / curriculum:**

- Game Design
- Unity / Unreal Programming
- Production
- Marketing

From 2025, a joint degree in Art & Design + Computer Science; combines game design, programming, production, and marketing.

[Programme page](#)

HSE University — St Petersburg campus — St Petersburg

Game Development · *game programme*

- **Degree:** Bachelor
- **Duration:** 4 yr
- **Language:** Russian
- **Tuition:** State research university — spb.hse.ru must be verified
- **Sample courses / curriculum:**

- Game Programming
- Graphics
- Game AI
- Optimization
- Network Programming

Technical game development degree; first intake 2025. Focused on graphics, AI, optimization, and network programming for video game developers.

Singapur

Tuition (country rule): Tuition at public polytechnics and universities is reduced with government support (tuition grant); international students receiving support must fulfill post-graduation work obligations.

DigiPen Institute of Technology Singapore — Singapore

BS in Computer Science in Interactive Media and Game Development + BS in Computer Science and Game Design · *game programme*

- **Degree:** BS (JOINT degree with SIT)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Singapore Institute of Technology (SIT) joint program — fees should be confirmed with SIT

- **Sample courses / curriculum:**

- Interactive Media and Game Development: real-time interactive systems
- Computer Science and Game Design: coding expertise + game design skills

- **Research labs:**

- Faculty pages are divided by fields: Game Software Design and Production · Digital Arts · Fine Arts and Animation <https://www.digipen.edu.sg/about/our-faculty/game-software-design-and-production>

- **Faculty:**

- Kevin Prior — Senior Lecturer — Game Software Design and Production <https://www.digipen.edu.sg/about/our-faculty/game-software-design-and-production>

DigiPen's Singapore campus; degrees are jointly awarded with SINGAPORE INSTITUTE OF TECHNOLOGY (SIT) - within the framework of a public university. Part of Singapore's digital economy strategy. Shares the same curriculum family as DigiPen's campuses in Redmond (USA) and Bilbao (Spain). The institution INVITES ITS GRADUATES TO JOIN THE FACULTY - its own graduates return as faculty members. Conducts joint degree programs with the Singapore Institute of Technology.

Verification sources: <https://www.singaporetech.edu.sg/about/overseas-university-partners/digipen-institute-technology-singapore>

Nanyang Polytechnic (NYP) — School of Design & Media — Singapore

Diploma in Game Development & Technology · *game programme*

- **Degree:** Polytechnic Diploma (3 years) — equivalent to an associate degree in Singapore
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** State polytechnic — nyp.edu.sg

- **Sample courses / curriculum:**

- 32 competency units — interdisciplinary
- 8 core competencies: game frontend development, game engine applications, networking, design, production
- 3 elective competencies: artificial intelligence, console games, extended reality (XR) or narrative design
- 5 work-integration units (real project experience)
- 12-WEEK INTERNSHIP in the 3rd year
- Capstone project

Strong short-cycle example: Singapore polytechnic diploma is short-cycle / associate level. Students are given special access to PLAYSTATION DEVELOPMENT KITS; there is collaboration with UBISOFT and EPIC GAMES. Annual quota is 88. Graduates can continue to a bachelor's degree at NUS, NTU, SIT or DigiPen through a transition model from short-cycle to bachelor's - a dual-level structure. The curriculum is competency-based.

Singapore Institute of Technology (SIT) — Singapore

BSc (Hons) in Computer Science in Interactive Media and Game Development (in partnership with DigiPen) · BA in User Experience and Game Design · *game programme*

- **Degree:** Bachelor of Science with Honours / Bachelor of Arts — 4 years, 240 credits
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** State university — singaporetech.edu.sg
- **Sample courses / curriculum:**

- Mathematics, programming and design theory fundamentals
- Game logic programming
- Interaction design
- Artificial intelligence
- UI/UX design
- Software engineering projects throughout the program
- 12 MONTH Integrated Work Study Programme (working in the industry)
- MANDATORY study abroad: at DigiPen's USA or SPAIN campus

The program is conducted in partnership with DIGIPEN INSTITUTE OF TECHNOLOGY. The most notable feature: MANDATORY STUDY ABROAD (DigiPen USA or Spain campus) and 12 MONTHS of industry work - a design that embeds mobility into the curriculum. The sister program offers a design/UX-focused alternative path in User Experience and Game Design.

[Programme page](#)

Temasek Polytechnic (TP) — School of Informatics & IT — Singapore

Diploma in Immersive Media & Game Development (T58) · *game programme*

- **Degree:** Polytechnic Diploma (3 years, minimum 120 credit units)
- **Duration:** 3 yr
- **Language:** English
- **Tuition:** State polytechnic — tp.edu.sg
- **Sample courses / curriculum:**

- Year 1: fundamentals of coding, interface design, networking, cybersecurity, data analytics
- Year 2: game development, AR application development, 3D modeling, computer graphics, immersive UI/UX design
- Year 3: advanced projects with REAL CLIENTS, game artificial intelligence, VR development, workplace learning
- Certifications: Unity Certified Associate Programmer, AWS Cloud Practitioner

Combines gaming with AR/VR and directs outputs towards HEALTH, HOSPITALITY, MANUFACTURING, and EDUCATION sectors - the non-entertainment use of game technology is clearly included in the curriculum. The 2026 quota is 25 students (selective). Unity is used as the industry standard. Students also receive industry certification upon graduation.

University of Ljubljana — Faculty of Computer and Information Science (LGM laboratuvari) — Ljubljana

Computer Graphics and Game Technology (university programme 3rd year) · Computer Graphics (vocational programme 2nd/3rd year) · *game courses*

- **Degree:** Undergraduate courses (no separate game degree)
- **Duration:** — *(no single value applies)* · **ECTS:** — *(no single value applies)*
- **Language:** Slovene (site in English)
- **Tuition:** State university — uni-lj.si
- **Sample courses / curriculum:**
 - Computer Graphics and Game Technology
 - Computer Graphics
 - Interactive 3D Game Development with WebGL
 - Unity3D Development Environment
 - Group work: joint teams with design students from partner institutions
- **Research labs:**
 - LGM — Laboratory for Computer Graphics and Multimedia; focuses on game development primarily from an EDUCATIONAL perspective, applying gamification to educational contexts <https://lgm.fri.uni-lj.si/research/game-development/>

There is NO separate game department; gaming is conducted within computer graphics courses and through the LGM laboratory. Notably, COMPUTER SCIENCE STUDENTS form joint teams with design students from partner institutions. Organises Unity3D summer schools for high school students. A key structure where game education is institutionally visible in Slovenia.

Dar Al-Hekma University — Jeddah

Bachelor of Science in Computer Science — Game Development Track · *game programme*

- **Degree:** Bachelor of Science (track)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — to be confirmed from dah.edu.sa
- **Sample courses / curriculum:**
 - Computer Games Design & Development
 - Mobile & Casual Games
 - Educational & Serious Game Design

Open CS game development track; includes serious/educational game design.

[Programme page](#)

Effat University — Jeddah

Bachelor of Science in Computer Science — Game Development Concentration · *game programme*

- **Degree:** Bachelor of Science (concentration)
- **Duration:** 4 yr
- **Language:** English
- **Tuition:** Private university — to be confirmed from effatuniversity.edu.sa
- **Sample courses / curriculum:**
 - Game Design/Development
 - Game Engines
 - Programming for Games
 - Advanced Game Development

Named GD concentration; within the College of Engineering CS program.

[Programme page](#)

Saudi Electronic University (SEU) — Riyadh (multi-campus / blended)

Bachelor of Science in Computer Science — Game Development Track · *game programme*

- **Degree:** Bachelor of Science (track)
- **Duration:** 4 yr
- **Language:** English (English language requirement for CS major)
- **Tuition:** State electronic university — must be verified at seu.edu.sa
- **Sample courses / curriculum:**
 - Game Architecture & Design
 - 2D/3D Game Programming
 - Game AI

Blended/multi-campus state university; elective courses published within the CS structure for the game track.

[Programme page](#)

Tuition (country rule): Tuition is charged and is low by international standards; public universities are cheaper than private ones.

China University of Science and Technology (CUST) — Oyun Tasarimi Bolumu — Taipei

Game Design — four-year undergraduate programme (computer games and animation design) · *game programme*

- **Degree:** Bachelor
- **Duration:** 4 yr
- **Language:** Chinese (Mandarin)
- **Tuition:** cust.edu.tw
- **Sample courses / curriculum:**
 - Integrated Design
 - Information Networks
 - Audio-Visual Production
 - Animation
 - Database
 - Screenwriting
 - Game Design
 - Marketing
 - Mobile Game and Virtual Reality Development
- **Research labs:**
 - Six specialized laboratories: game production studios, art design workshops, 3D software laboratories, and VR equipment https://pidgs.cust.edu.tw/about_english.html

According to its own introduction, the only game design department in TAIPEI. The curriculum is based on industry internships and PROFESSIONAL CERTIFICATION - practice-oriented short-cycle structure. Graduates can continue to master's programmes in multimedia design and game design.

Turkiye

Country Overview (2026 YÖK Guide): Game education in Turkey is conducted in two branches. At the **undergraduate** level, *Digital Game Design* is offered at **33 universities** (9 public, 24 private) with 73 program registrations and **1,482 quotas**; 31 of these are in English. At the **associate degree** level, *Game Development and Programming* and *Digital Game Technologies* are offered at **26 universities** (15 public, 11 private) with 39 program registrations and **916 quotas**; all are in Turkish, and graduates can transition to undergraduate programs via DGS. Below are detailed institutional records verified from their own websites, followed by the **complete list of all programs in the guide**.

Tuition (country rule): Tuition is free for full-time education at public universities (only a contribution fee); private universities charge fees and typically reserve scholarship quotas.

Afyon Kocatepe Universitesi — Bilisim Teknolojileri Meslek Yuksekokulu — Afyonkarahisar

Game Development and Programming · *game programme*

- **Degree:** Associate Degree
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** Turkish
- **Tuition:** Public university
- **Sample courses / curriculum:**
 - Game engines (Unity, Unreal Engine)
 - Programming languages (C#, Python)
 - 3D graphic modeling
 - Artificial intelligence algorithms
 - Data structures in games
 - Game physics

Graduates can transition to bachelor's degree via DGS. Contact: btmyo@aku.edu.tr

Bahcesehir Universitesi (BAU) — İletişim Fakültesi — İstanbul

Digital Game Design (Bachelor's) + Game Design Master's Program (Master BUG, Institute of Social Sciences) · *game programme*

- **Degree:** Bachelor's + Master's
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** Vakıf University — bau.edu.tr
- **Sample courses / curriculum:**
 - Core Courses in Game Design
 - Game Development
 - Game Visual Arts
 - Game Production and Project Management
 - Game Screenwriting
 - Game Sound Design
 - Game Economy
 - Specialization with Electives in Advanced Stages
- **Research labs:**
 - BUG — Bahcesehir University Game Laboratory (within the Faculty of Communication) <https://bau.edu.tr/icerik/11129-dijital-oyun-tasarimi-hakkinda>
- **Faculty listing:** According to the YOK 2026 guide, the number of teaching staff associated with the program is shown as — Digital Game Design (English) (Scholarship): 1 professor · 2 associate professors · 1 assistant professor · 1 research assistant.

One of the programs ranking at the VERY TOP of the Digital Game Design base scores in Turkey. Its distinctive feature is the establishment of a BACHELOR-LABORATORY-MASTER'S COMBINED: the BUG game laboratory directly feeds the Master's BUG program. Graduation outputs are very diverse: game designer, developer, visual artist, producer, project manager, screenwriter, sound designer, game economy specialist.

Game Development and Programming · *game programme*

- **Degree:** Associate Degree
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** Turkish
- **Tuition:** Vakıf University — arel.edu.tr
- **Sample courses / curriculum:**
 - Game Design and Scenario Development
 - Game Engines (Unity, Unreal Engine)
 - 2D and 3D Modelling
 - Programming (C#, Python, JavaScript)
 - Artificial Intelligence Applications
 - Mobile Game Development
- **Faculty listing:** According to the YOK 2026 guide, the number of teaching staff associated with the program is shown as — Digital Game Design (English) (Scholarship): 1 associate professor · 2 assistant professors · 2 research assistants · Digital Game Design (English) (Scholarship): 1 associate professor · 2 assistant professors · 1 research assistant · Digital Game Design (Scholarship): 5 assistant professors · Digital Game Design (English) (Scholarship): 1 research assistant · Digital Game Design (Scholarship): 1 associate professor · 2 assistant professors · 1 research assistant · Digital Game Design (English) (Scholarship): 1 professor · 1 assistant professor · 1 research assistant · Digital Game Design (Scholarship): 1 associate professor · 3 assistant professors · 2 research assistants · Digital Game Design (Scholarship): 2 professors · 2 assistant professors · 1 research assistant · Digital Game Design (Scholarship): 1 associate professor · 1 assistant professor · 2 research assistants · Digital Game Design (Scholarship): 1 assistant professor · 2 research assistants · Digital Game Design (Scholarship): 4 assistant professors · 1 research assistant · Digital Game Design (English) (Scholarship): 1 professor · 2 assistant professors · 1 research assistant · Digital Game Design (Scholarship): 2 assistant professors · 1 research assistant · Game Development and Programming (Scholarship): 1 assistant professor · Game Development and Programming (Scholarship): 2 assistant professors.

Graduates can transition to the DIGITAL GAME DESIGN bachelor's program via DGS - this shows that the transition line from associate to bachelor's in Turkey has been established in the gaming field.

Istanbul Bilgi Universitesi — İletişim Fakültesi — Istanbul

Digital Game Design (Bachelor's) — TURKEY'S FIRST four-year digital game design bachelor's program · *game programme*

- **Degree:** Bachelor's
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English
- **Tuition:** Vakıf University (scholarship quotas available) — bilgi.edu.tr
- **Sample courses / curriculum:**
 - Game Programming and Game Engines (Unity, Unreal Engine)
 - 2D/3D Game Development
 - Narrative Design
 - User Experience
 - Analog and Digital Game Development Together
 - Electives: Visual Communication Design, Cinema, Music, and Engineering Fields
- **Research labs:**
 - Game Lab — a digital game development laboratory equipped with current game engines, advanced computer systems, and VR technologies <https://www.bilgi.edu.tr/tr/akademik/iletisim-fakultesi/dijital-oyun-tasarimi/>

- Game Studio — a prototyping area for individual and team projects; 3D production tools and a comprehensive game archive <https://www.bilgi.edu.tr/tr/akademik/iletisim-fakultesi/dijital-oyun-tasarimi/>

- **Faculty:**

- Doc. Dr. Nuri Kara — Department Head

TURKEY'S FIRST four-year digital game design bachelor's program. It positions the game not just as entertainment but as a POWERFUL EXPRESSION, EXPERIENCE, AND INTERACTION ENVIRONMENT. Students work in interaction with design, computer science, visual communication, cinema, and new media. There is also a Game Development and Programming program at the MYO level at the same university.

Istanbul Bilgi Universitesi — Meslek Yuksekokulu — Istanbul

Game Development and Programming (Software, Application Development and Analysis Department) · *game programme*

- **Degree:** Associate Degree
- **Duration:** 2 yr · **ECTS:** 120 ECTS
- **Language:** Turkish
- **Tuition:** Foundation university — bilgi.edu.tr

- **Sample courses / curriculum:**

- Programming
- Game engines (Unity, Unreal Engine)
- Game mathematics
- User experience (UX)
- Game design
- Character modeling
- Script development
- Mobile game development
- 2D and 3D graphic design

- **Faculty listing:** The number of teaching staff indicated in the YOK 2026 guide related to the program — Digital Game Design (English) (Scholarship): 1 associate professor · 2 assistant professors · 2 research assistants · Digital Game Design (English) (Scholarship): 1 associate professor · 2 assistant professors · 1 research assistant · Digital Game Design (Scholarship): 5 assistant professors · Digital Game Design (English) (Scholarship): 1 research assistant · Digital Game Design (Scholarship): 1 associate professor · 2 assistant professors · 1 research assistant · Digital Game Design (English) (Scholarship): 1 professor · 1 assistant professor · 1 research assistant · Digital Game Design (Scholarship): 1 associate professor · 3 assistant professors · 2 research assistants · Digital Game Design (Scholarship): 2 professors · 2 assistant professors · 1 research assistant · Digital Game Design (Scholarship): 1 associate professor · 1 assistant professor · 2 research assistants · Digital Game Design (Scholarship): 1 assistant professor · 2 research assistants · Digital Game Design (Scholarship): 4 assistant professors · 1 research assistant · Digital Game Design (English) (Scholarship): 1 professor · 2 assistant professors · 1 research assistant · Digital Game Design (Scholarship): 2 assistant professors · 1 research assistant · Game Development and Programming (Scholarship): 1 assistant professor · Game Development and Programming (Scholarship): 2 assistant professors.

BILGI is one of the rare institutions providing game education at both ASSOCIATE (Vocational School) and BACHELOR (Faculty of Communication Digital Game Design) levels - seeing both levels running together at the same university is instructive as a dual-level structure. Graduates can transition to bachelor's degree via DGS.

Digital Game Design (Bachelor) — NEW: will accept its first students in the 2026-2027 academic year · *game programme*

- **Degree:** Bachelor
- **Duration:** 4 yr · **ECTS:** 240 ECTS
- **Language:** English (to be confirmed by the institution)
- **Tuition:** Vakıf University; first year quota 29 (fully funded and 50% funded) — yeditepe.edu.tr
- **Sample courses / curriculum:**

- As the program is newly established, the course list should be obtained from the institution

A BRAND NEW program that will accept its first students in 2026-2027; within the Faculty of Arts and Design. The initial quota is 29 students, all of whom are funded (full scholarship or 50% scholarship) - indicating investment in the program. A good example of the rapid expansion of game education at the undergraduate level in Turkey.
